23rd January 2024

IPWEA International Asset Management Congress returns to Canberra with cohost IPWEA NSW & ACT

We are pleased to announce the IPWEA International Asset Management Congress will be returning in 2024 in partnership with IPWEA NSW & ACT. The event will be held in the nation's capital, at the National Convention Centre in Canberra, from 27th to 29th November, 2024.

Last year's 2023 International Asset Management Congress, held on the Gold Coast in June, was the stand-out event of the year for infrastructure asset management professionals, attracting local and international delegates for two days of presentations, conversations and deep thinking. The resulting Asset Management [Congress Communique](#) informs IPWEA's ongoing advocacy and thought leadership efforts.

The 2024 Congress will follow this tradition of bringing together international thought leaders and practitioners to engage delegates in advancing asset management practices locally and globally.

"We're delighted to be able to host the International Asset Management Congress in Canberra once again, together with our NSW & ACT Division. Continuing the Journey to Excellence in Infrastructure Asset Management is the theme for this year's event," says David Jenkins, IPWEA Australasia CEO.

"Delegates will have the opportunity to learn from strategic leaders and practitioners, shaping the future for our local, national and international communities," he continues.

"It will be an exciting time to see our Institute's Divisions collaborate and bring together an important event for its members, we look forward to seeing the many engaging and expert speakers share their knowledge and wisdom with us all" says David Elliott, IPWEA NSW & ACT CEO.

You can find out more about the 2024 Congress and register your interest in the event at www.amcongress.com.au.

About IPWEA

The Institute of Public Works Engineering Australasia is the peak association for municipal and public works professionals in Australia and New Zealand. IPWEA is a global leader in the delivery of sustainable infrastructure asset management, financial planning and reporting.

About IPWEA NSW & ACT

The NSW and ACT Division leans heavily towards our mission and vision:- to enhance the quality of life of NSW and ACT communities through excellence in public works and services. Our membership has a broad reach as a recognised leading professional association that effectively informs, connects, represents and leads public works professionals both within state and local government.
