SASIG

Monday 13 June 2022, 11am-12noon (BST)  
Measuring security behaviours at work: The tips, tricks, and pitfalls!  
https://www.thesasig.com/calendar/event/22-06-13-awareness/  
The security awareness and training (SA&T) market has been stagnant for too long. In this webinar, we’ll discover how to truly manage human cyber risk. We’ll focus on the real question: “How do I manage and measure behaviour change, and instil a security culture?”

Wednesday 15 June 2022, 11am-12noon (BST)  
How to build an advanced email security strategy  
Most cyberattacks still start with or involve email. Stopping threats in email first can strengthen your entire security strategy. An advanced email security strategy can empower you to see, block, and respond to all email threats to your organisation.

Friday 17 June 2022, 11am-12noon (BST)
Survivorship Bias – Something’s missing from our data
https://www.thesasig.com/calendar/event/22-06-17-metrics/

In this session, we take a look at survivorship bias, a data collection error (or is it an interpretation error?) where we only see a subset of a real representation, and its impact on how we analyse our security awareness campaigns and programmes. Collection methods which are potentially biased to the data supplied or require criterion are flawed if not acknowledged, and can lead to false conclusions.

Graduate Apprenticeship Programmes
Several universities are offering this opportunity - Happy to
add them if they provide contact details

Glasgow Caledonian University
The Graduate Apprenticeship Programmes including the Graduate Apprenticeship MSc Masters Cyber Security and the BSc Cyber Security both Programmes are fully funded and you need to be working in security role in Scotland with a Scottish post code address
https://www.gcu.ac.uk/study/graduateapprenticeships/

Ronnie Beattie would be delighted to hear from interested candidates for both Programmes
ronnie.beattie@gcu.ac.uk and 0771 4715286

The Robert Gordon University Graduate Apprenticeship in MSc Cyber Security
The 18-month fully funded course consists of four taught modules and a capstone project. It has two start dates (September and February) and is available to applicants who are employed in a role related to the course of study, and who have the right to live and work in Scotland. The course is delivered primarily online, in addition to an on-campus workshop per taught module.

For more details and to apply, please visit:
