Quarter 3 2023

## **SASIG Webinars**

**Monday 17 April 2023, 11am-12noon (BST)**

**How do you escape the local/national/global cyber skills merry-go-round?**

**<https://www.thesasig.com/calendar/event/23-04-17-hr/>**

UK and US cybersecurity, counter-fraud, online safety and safeguarding strategies are all competing for skills that do not exist. They have no credible strategies to provide them. The shortage of cyber skills, at all levels, is therefore global. The alternative strategies to attract, develop and retain the skills we need depend on working with trusted partners (such as training providers) to attract and develop the talents we need, including from among our existing users, among those likely to stay with us.

**Wednesday 19 April 2023, 11am-12noon (BST)**

**The Chief's Brief with Carole Drape, former Director of Security and CISO, John Lewis Partnership** ***requires website login***

**<https://www.thesasig.com/calendar/event/23-04-19-evening/>**

**Friday 21 April 2023, 11am-12noon (BST)**

**Deception: The secret weapon against identity-based attacks**

**<https://www.thesasig.com/calendar/event/23-04-21-resilience/>**

Despite advancements in modern security controls, identity-based attacks remain a major challenge for businesses. Organisations need more effective ways to protect identities and identity management infrastructures. Deception is an often-overlooked tool that significantly improves identity security by creating false targets that redirect attackers away from your most valuable assets. Utilising deception techniques reverses the power dynamics between attackers and defenders, putting the burden of success on them instead of you.

### **Future Event**

**Thursday 4 May 2023 9.30am – 3pm Birmingham In Person**  
**Midlands SASIG In collaboration with BT and ISACA** with contributions from the West Midlands Cyber Resilience Centre, ROCU and DSIT.

<https://www.thesasig.com/calendar/event/23-05-04-midlands/>

All SASIG events operate under Chatham House Rule and there is no charge to attend. Refreshments for the day are also kindly provided by our hosts.

**Opening Keynote: Resilience – what impacts organisations?**

**Ransomware – Should I pay, or should I go?**

**Panel session: The challenge with supply chains**

**A presentation by SentinelOne**

**Nudging our way towards successful cybersecurity awareness training**

**Cyber Forensics: Who did what to you and how**

**Panel Session: Building your organisations resilience: What's there to help**

### **ISACA Online**

### **Hot Topics in ISACA Exchange Forums**

### **Audit and Assurance**

We look forward to welcoming Daniel Dobrygowski to Engage to share his expertise and insight during this AMA session about technology risk, corporate governance, and digital trust.

**Connect with Daniel and other digital trust professionals in this weeklong asynchronous community event, 24-28 April.**

*[I'm the Head of Governance and Trust at the World Economic Forum: Ask Me Anything!](#)*

AMA Process:

1. Join the [Governance community](#) on Engage (and look under the events tab for this event)
2. Subscribe to the Governance community daily digest to stay connected with the latest conversations, including this AMA thread.
3. When the AMA thread is posted on 24 April, reply with any questions you have for Daniel. He will be sharing his insights and experiences the week of 24-28 April 2023.

## **Information and Cybersecurity**

### **The Ultimate Kali Purple Guide: Everything You Need to Know**

**<https://www.stationx.net/kali-purple-guide/>**

**Chatbots, do they lie?**

## **Risk Management**

**Client as the Asset**

## **COBIT and Governance**

### **Graduate Apprenticeship Programmes**

***Several universities are offering this opportunity - Happy to add them if they provide contact details***

#### **Glasgow Caledonian University**

**The Graduate Apprenticeship Programmes including the Graduate Apprenticeship MSc Masters Cyber Security and the BSc Cyber Security both Programmes are fully funded and you need to be working in security role in Scotland with a Scottish post code address**

**<https://www.gcu.ac.uk/study/graduateapprenticeships/>**

**Ronnie Beattie would be delighted to hear from interested candidates for both Programmes**

**ronnie.beattie@gcu.ac.uk and 0771 4715286**

#### **The Robert Gordon University Graduate Apprenticeship in MSc Cyber Security**

**The 18-month fully funded course consists of four taught modules and a capstone project. It has two start dates (September and February) and is available to applicants who are employed in a role related to the course of study, and who have the right to live and work in Scotland. The course is delivered primarily online, in addition to an on-campus workshop per taught module.**

For more details and to apply, please visit:
