Updated Membership Reinstatement Fees— the membership reinstatement fee schedule/structure is now aligned with the certification reinstatement fee structure, effective after the annual revocation process:

• Membership: US $50 reinstatement fee + current dues
• Certification (each): US $50 reinstatement fee + current year fees + maintenance fees for every year missed + documentation all CPE requirements were met.

Individuals whose membership and/or certification(s) have been revoked should visit https://support.isaca.org for assistance with reinstatement(s).

PSI Planned Outages—PSI, the testing organization for ISACA certifications and certificates, will be upgrading a data center from 11:00am Chicago time (17.00 UK) on 13 August to 6:00pm Chicago time (Midnight UK) on 14 August. All booking and testing during that time is blocked for test takers. Those who have exams scheduled during that time will be informed and rescheduled.

Other upcoming scheduled maintenance dates are:
• 21 August 2022
• 2 October 2022
• 13 November 2022
• 8 January 2023

Multi-Factor Authentication—On 18 August, ISACA will launch multi-factor authentication (MFA) as an optional layer of login security. ISACA’s MFA will require two verification methods to access the account:
something the user knows (username and password) and something the user has (e.g., an authentication app on a mobile device).

Users may choose to opt-in for MFA under their ISACA Profile: Navigate to MyISACA, select “Security” from the left menu, check the “Enable Multi Factor Authentication” box, and confirm.

Users should visit https://support.isaca.org if assistance is needed

**Graduate Apprenticeship Programmes**

*Several universities are offering this opportunity - Happy to add them if they provide contact details*

Glasgow Caledonian University

The Graduate Apprenticeship Programmes including the Graduate Apprenticeship MSc Masters Cyber Security and the BSc Cyber Security both Programmes are fully funded and you need to be working in security role in Scotland with a Scottish post code address

[https://www.gcu.ac.uk/study/graduateapprenticeships/](https://www.gcu.ac.uk/study/graduateapprenticeships/)
Ronnie Beattie would be delighted to hear from interested candidates for both Programmes
ronnie.beattie@gcu.ac.uk and 0771 4715286

The Robert Gordon University Graduate Apprenticeship in MSc Cyber Security

The 18-month fully funded course consists of four taught modules and a capstone project. It has two start dates (September and February) and is available to applicants who are employed in a role related to the course of study, and who have the right to live and work in Scotland. The course is delivered primarily online, in addition to an on-campus workshop per taught module.
