SASIG Webinars

Monday 22 May 2023, 11am-12noon (BST)

How war in Europe changed the threat landscape, perspectives from ESET telemetry

https://www.thesasig.com/calendar/event/23-05-22-cybercrime/

We will provide an overview of destructive wiper malware based on the trends observed in ESET telemetry data in 2022, and present details of handpicked incidents that impacted Ukraine and its allies. We will also explore the shifting popularity of several intrusion vectors, including brute-force attacks against RDP and the endemic vulnerability in the Log4j library. To broaden the context beyond the Windows platform, we will zoom in on Android, the only category that saw continuous growth of detections throughout 2022.
Tuesday 23 May 2023, 9.30am – 3pm (BST) – In Person Liverpool

North West SASIG - Culture and security: Setting the right tone

---

Wednesday 24 May 2023, 11am-12noon (BST)

You need me to do what? 50 years of computing, comms and security

Join us for a whistle-stop tour through Peter Wood’s five decades in computing, communications, and security. Pete will talk about some of his more unusual and interesting experiences, including installing systems in Poland during the cold war, the challenges of electronic airline systems at Gatwick, the early adoption of local area networks in business, and the first ISP in Brighton. He’ll also explain why he had to patch a live operating system in hex by telephone, paint dozens of Commodore PETs bright orange, and write 6502 machine code for sharing a hard disk.

Wed, 24 May 2023 16:00 - 18:00 BST  Hybrid - University of Surrey & Online

Cybersecurity of next generation communications systems

[https://www.eventbrite.co.uk/e/cyber-security-of-next-generation-communications-systems-tickets-559383239327](https://www.eventbrite.co.uk/e/cyber-security-of-next-generation-communications-systems-tickets-559383239327)
Quick wins to identify and mitigate insider threat

Information protection is more accessible than you may think, with enhancements to your existing approaches and tools. In this webinar, we will look at the quick wins, such as augmenting existing technology, that can help you reduce your insider threat by mitigating data loss through careless, compromised and malicious users.

Future Events

MEMBERSHIP BENEFITS

Price Update! ISACA Webinars for Non-members

Beginning 1 August 2023, a pricing change will go into effect for new and on-demand ISACA webinars:

- Non-members will be charged US $75 at registration.
- Members will continue to receive this free benefit (a value of US $3,750 across over 50 webinars).

-------------------------------------------------------------------------------------

ISACA Mentorship Program
The Program facilitates one-to-one mentorship connections and brings together ISACA members at all stages of their careers who want to give or receive professional development support. Career mentoring helps both participants to expand networks, gain new knowledge and insights, and build new skills.

As always, 72 free CPEs are available to you through your ISACA membership.

Graduate Apprenticeship Programmes

Several universities are offering this opportunity - Happy to add them if they provide contact details

Glasgow Caledonian University

The Graduate Apprenticeship Programmes including the Graduate Apprenticeship MSc Masters Cyber Security and the BSc Cyber Security both Programmes are fully funded and you need to be working in security role in Scotland with a Scottish postcode address

https://www.gcu.ac.uk/study/graduateapprenticeships/

Ronnie Beattie would be delighted to hear from interested candidates for both Programmes
ronnie.beattie@gcu.ac.uk and 0771 4715286

The Robert Gordon University Graduate Apprenticeship in MSc Cyber Security

The 18-month fully funded course consists of four taught modules and a capstone project. It has two start dates (September and February) and is available to applicants who are employed in a role related to the course of study, and who have the right to live and work in Scotland. The course is delivered primarily online, in addition to an on-campus workshop per taught module.
For more details and to apply, please visit:
