

Cybersecurity in the Ozarks - 2026

Is a **two-day / 7 CPE virtual event** on **March 10 & 11**. All participants \$95.

[Registration](#) deadline is **March 9**.

Cybersecurity in the Ozarks - 2026, sponsored by the ISACA Fayetteville Chapter, is the cybersecurity event you don't want to miss. We've brought together the latest cyber topics along with industry leading speakers from SBS Cybersecurity. Offering a **new slate of topics**, this two-day, virtual event will focus on the evolving cybersecurity threats and what your organization should do to build a strong Information Security Program to minimize these real-world threats.

Cody Delzer, CISA, CDPSE, is the Principal Consultant at SBS. He received his Bachelor of Science in Computer and Network Security from Dakota State University. Cody has over 14 years of risk management, audit, and consulting experience in the financial services industry, specializing in IT and IT security, systems operations, and information assurance. He joined the SBS team in 2011 and has transitioned into a senior leadership role as the Principal Consultant.

Lynda Hartup, CISA, CISM, CBSM, is a Senior Information Security Consultant at SBS. She received her Bachelor of Interdisciplinary Studies from the University of Southern Mississippi and completed the Graduate School of Banking at Louisiana State University. Lynda has over 20 years of financial institution experience in various positions, including Info Sec Officer, Bank Examiner-IT Specialist for the Mississippi Department of Banking. Her specialties lie in IT governance, risk management, and regulatory compliance.

Mark Shiarla, CBSM, CBSTP, CBIH, ISC2 Certified in Cybersecurity (CC), is a Information Security Consultant. He received his Bachelor of Arts in Business Administration from Heidelberg College. Mark has over 20 years of IT experience in the financial services industry, holding an IT Officer role for nearly 10 years. He is proficient in all aspects of IT services and network security and has working experience with writing IT policies for a financial institution, upgrading networks, and implementing new systems.

Laura Zannucci, CISA, CISM, CRISK, CDPSE, is an Audit Manager at SBS. Laura has been involved in the financial services industry since 1993, serving in a variety of roles, including Information Security Officer, Internal Auditor, and Deposit and Loan Operations Manager. She received her Bachelor of Science in Business Administration from the University of Tennessee at Chattanooga and is a graduate of the Southeastern School of Banking.

Hunter Cockrell is Principal Network Security Engineer at SBS. Hunter received his Bachelor of Science in Network Security from Dakota State University. He joined the SBS network security team in 2016, specializing in social engineering, penetration testing, and vulnerability assessments.

The scheduled topics include:

- Top 10 IT Audit Recommendations
- Breaking Down SOC Reports
- From Vulnerabilities to Validation - How to Test Your Network
- Vendor Management 2026
- What You Need to Know About AI & Technology Today
- AI Security & Privacy
