ABOUT THE TRAINING

ISACA Malaysia Chapter is organizing this intensive training to prepare you for the CISA certification examination. The accredited trainers will focus exclusively on the essential domain areas covered by the examination and will be training you by solely using only training materials that have been approved by ISACA Global. All the trainers have valuable working experience with technical skills and knowledge to complement their training delivery.

CISA DOMAINS

Providing assurance that policies, standards, procedures and controls ensure the confidentiality, integrity and availability of information assets.

Providing audit services in accordance with standards to assist organizations in protecting and controlling information systems.

Protection of Information Assets, 27%

Auditing Information Systems Auditing Process, 21%

Information Systems Operations, Maintenance and Service Management, 23%

Governance and Management of IT, 17%

Delivering assurance that the necessary leadership, structures and processes are in place to achieve organizational objectives and support strategy.

Providing assurance that processes also meet strategies and objectives.

Information Systems Acquisition, Development and Implementation, 12%

Providing assurance that the practices in these areas will meet strategies and objectives.
