

# Half Day Talk: Cyber Risk & Managing Privileged Access Management

Date/Time: 26 September 2019 | 2:00 – 5:30pm

Location: Sime Darby Convention Center, Bukit Kiara, Kuala Lumpur

## Overview

### Cyber Risk

Get up close and personal with Australia-based APAC executive advisor, international speaker and author, Shamane Tan, as she unpacks some of the key takeaways from her acclaimed book 'Cyber Risk Leaders' which was birthed from more than 70 over CISO conversations around the globe.

Shamane will explore the different challenges faced by our industry leaders in this region, as well as some of the approaches that have worked best for CISOs in navigating their stakeholders. In addition to business perspectives, Shamane will also reveal some of the behind-the-scenes episodes from the lens of the hackers.

### Managing Privileged Access Management

Organisations often overlook protection of their privileged credentials, thus leaving a gaping hole in their defenses. Privileged access provides direct, all-powerful access to an organization's most critical systems and sensitive data. If compromised, they can provide external attackers and malicious insiders with unfettered access to the heart of the enterprise.

Wong Wai Kit will share his experiences on some key risks, challenges and the critical success factors in controlling and securing privileged access management.

## Keys Takeaways

### Cyber Risk

- Overview of some of the key challenges of the modern-day CISOs
- Explore some of the approaches that have been employed by effective CISO leaders
- Walkthrough of a successful break-in (incognito-style) from the perspective of the hacker

### Managing Privileged Access Management

- Identify key risks in uncontrolled IT environments
- Understand the secure pathway to DevOps automation
- Improving the organizational security posture

## Who Should Attend

This talk is suitable for IT security/risk professionals, auditors, advisors, etc. who is keen to increase their knowledge and understanding on cyber risk issues and managing privileged access management.

3 CPE hours

# Half Day Talk: Cyber Risk & Managing Privileged Access Management

## Our Speakers

### **Shamane Tan**, Executive Advisor, APAC

Shamane Tan works with C-Suite executives to ascertain the best approach for uplifting the corporate security posture and managing cyber risk in a digital age. She is the author of the book 'Cyber Risk Leaders' which is a CISO handbook containing rich insights from 70+ CxOs across industries, from all over the world on modern day Cyber Security challenges.

As the founder of Cyber Risk meetup which has 2,000 members across Australia and Singapore, Shamane's platform offers security enthusiasts and executives an important channel to impart and exchange innovative insights. Shamane is a huge advocate and business champion for cyber risk professionals and actively encourages people to look for new ways to take a step forward.

**Exclusive for this talk only!**  
20 Cyber Risk Leaders books to be given away to members attending this talk in our lucky draw!

### **Wong Wai Kit**, Regional Solutions Engineer, ASEAN

Wai Kit started his career as IT security professional who has over 13 years of experience in the IT security industry. He joined CyberArk in 2012 as a regional solution engineer to provide an advisory and consultancy of Privilege Access Management solution from SME to large enterprise clients across the region.

Wai Kit is also a Certified Information System Security Professional (CISSP) holder for more than 9 years who passionate about Cyber Security with a strong desire.
