

Half Day Talk: Are You Ready for Cyber Attack?

Date/Time: 26 November 2019, 1:30pm – 5:30pm

Location: Sime Darby Convention Center, Kuala Lumpur

Malaysia Chapter

Overview

Cyber attacks continue to make headlines. The cyber threat landscape is constantly changing and new threats are emerging on a daily basis. Organizations have to defend against every kind of attack, whereas an attacker just needs to find one flaw to penetrate the organizations

In BNM RMiT's requirements, organization is required to develop a comprehensive Cyber Incident Response Procedure (CIRP) and conduct annual cyber drill exercise to test the effectiveness of its CIRP.

With that, ISACA Malaysia Chapter is proud to introduce, by popular request, a Members Talk on "Are You Ready for Cyber Attack" focusing on cyber incident response concept and process. The speakers will share their experiences on the methodology, challenges in implementing Cyber Incident Response, and its critical success factors.

The participants will also have a chance to participate with an interactive game on how to response to an cyber attack scenario. This will allow participants to have a better idea and may improve on their existing CIRP.

Key Takeaways

- Understand what is Cyber Incident Response - The plan, methodology and approach
- The key impacts to anticipate should organizations do not have a Cyber Incident Response Plan in place
- Challenges in plan implementation and its success factors
- Learn to plan and act on Cyber Incidents through an interactive simulation game

Who Should Attend

This talk is suitable for security professionals, auditors, advisors, etc. who want to have a better understanding on Cyber Security Incident response.

3 CPE hours

Half Day Talk: Cyber Security Incident Response

Our Speakers

Leonard Sim

Leonard Sim joined Kaspersky in Nov 2017 as the Head of Presales for the APAC region. In this role, he currently leads the team of presales managers and engineers across the Asia Pacific region, providing presales support on all Kaspersky Lab solutions to address the cyber security needs and requirements from customers and partners.

Prior to joining Kaspersky Lab, Leonard was in various presales and sales engineering roles across multiple global cyber security vendors, for more than 15 years. He is armed with an extensive range of knowledge from cloud security, email security to software-as-a-service, and has driven successful sales closure in collaboration with the sales teams.

Victor Chu

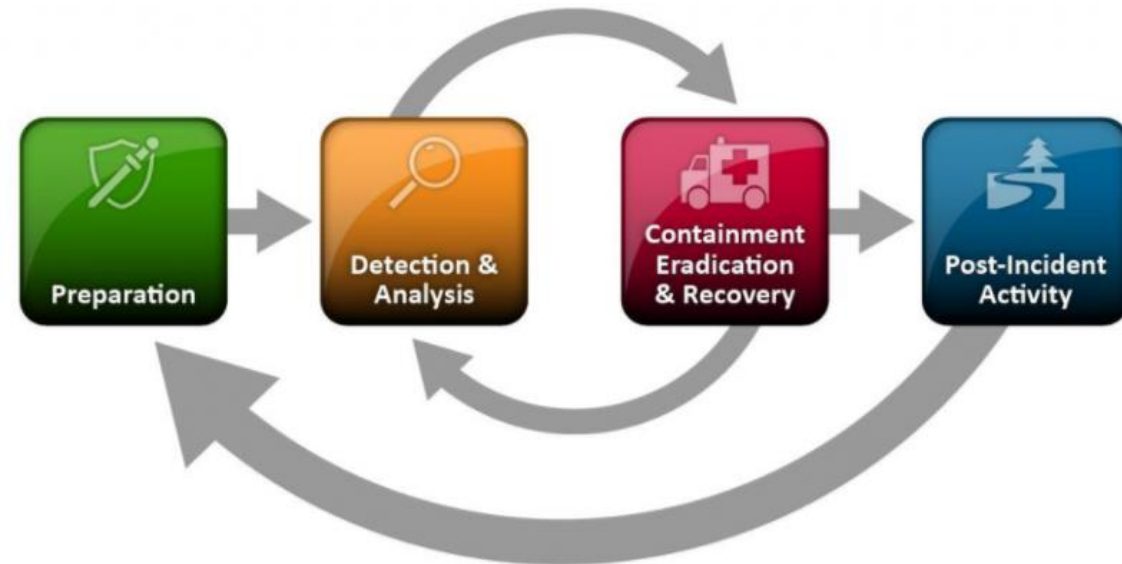

Victor Chu joined Kaspersky as the Head of Systems Engineering for South East Asia (SEA) region, bringing with him 19 years of ICT industry experience. He is tasked to lead pre-sales and consultative technical direction and roadmap in the area of enterprise cybersecurity which enable organizations to build maturity in solving the challenges of managing security risks and operations.

Prior to joining Kaspersky, Victor held various technical and advisory roles at leading networking and cyber-security vendors including IBM Security. His experiences encompass design thinking, enterprise security architecture, identity governance and access management, security operations and response, data security and protection, and internetworking architecture.

Agenda

- 1:30pm Registration
- 2:00pm Cyber Incident Response methodology, impacts and success factors
- 2:30pm Break / Networking
- 3:00pm Kaspersky Interactive Protection Simulation (KIPS): Learn to plan and act in the event of a cyberattack
- 5:15pm Q & A Session
- 5:30pm The End
