

POLICY & PROCEDURES
FOR DEVELOPING, AWARDING AND
REVOKING
PROFESSIONAL DESIGNATIONS

ISACA[®]

South Africa Chapter

Policy and Procedures for Developing, Awarding and Revoking ISACA South Africa Chapter Professional Designations

1. Introduction

This policy document sets out the underlying principles and procedure for the awarding, and revoking of professional designations awarded to members by ISACA South Africa Chapter.

The ISACA SA Chapter is only registering two designations with this submission, but there are others that we will register in due course,

At this stage, our objective is to provide a career path for all technology professionals that follow the following pathways:

- Information Systems Audit
- Information Security Management

2. Principles

- 2.1 Professional designations are awarded to members in good standing who demonstrate competence in the execution of their professional roles.
- 2.2 Competence is demonstrated by a member who:
 - a. has the requisite knowledge and skills required to perform his/her professional role and to solve associated problems; and
 - b. has carried out his/her professional duties and responsibilities consistently in an ethical and proficient manner, over a period of time, in the best interests of the client.
- 2.3 Professional designations are withdrawn from members who contravene the ISACA South Africa Chapter Code of Conduct so bringing the profession into disrepute and harming the reputation of ISACA South Africa Chapter.
- 2.4 Designations are awarded in accordance with the SAQA criteria for the awarding and revoking of a professional designation. (SAQA Policy and Criteria for Recognising a Professional Body and Registering a Professional Designation for the Purposes of the National Qualifications Framework Act, Act 67 of 2008: Sections 28(iii) and 42.)
- 2.5 Professional designations are awarded and revoked as part of ISACA South Africa Chapter's obligation as a SAQA recognised professional body to "protect the public interest in relation to services provided by its members and the associated risks." (Ibid: Section 28(ii))
- 2.6 Possession of the required knowledge is demonstrated by the member possessing a relevant NQF registered qualification or part qualification.
- 2.7 Should a member who applies for a professional designation possess a qualification issued by an institution not registered in South Africa, the member must ensure that the qualification is evaluated by SAQA and found to be comparable to the underlying South African qualification. (Ibid: Section 42(v))
- 2.8 Performance of a professional role in an ethical and proficient manner is demonstrated by the member having performed his/her work responsibilities and duties at a specific level over a period of time as laid down by ISACA South Africa Chapter for each designation in Appendix 1, without contravention of any related legislation, regulations or codes of conduct.

POLICY AND PROCEDURES FOR DEVELOPING, AWARDING AND REVOKING ISACA SOUTH AFRICA CHAPTER PROFESSIONAL DESIGNATIONS

- 2.9 Due to the fact that many South Africans were denied the opportunity to obtain professional qualifications and yet were allowed to, and still do, perform the duties related to the ISACA South Africa Chapter professional designations, they may be awarded the relevant designation through a process of the Recognition of Prior Learning (RPL). In addition, members who do not have the underlying qualification for any other reason and yet are competent in their jobs may be awarded the relevant professional designation through RPL according to the ISACA SA RPL Policy.
- 2.10 RPL relates to various types of learning, including:
- a. Formal learning (qualifications and/or part qualifications offered by registered and accredited providers in South Africa or overseas);
 - b. Non-formal learning (learning done formally in the form of non-accredited courses and programmes);
 - c. Informal learning (learning acquired through on-the-job workplace learning, reading, self-teaching, etc.); and
 - d. A combination of formal, informal and non-formal learning.
- 2.11 Members awarded professional designations must comply with the requirements for Continuing Professional Development (CPD) as laid down by ISACA South Africa Chapter in the respective CPD Policies. Failure to comply with the CPD requirements may lead to the revoking of a member's professional designation.
- 2.12 Only the ISACA South Africa Chapter Board may award, suspend and/or revoke ISACA South Africa Chapter professional designations.

3. The Application/Awarding of Designations Procedure

- 3.1 Any person who is of the opinion that he/she is eligible for a professional designation may apply, in writing, on the prescribed form to ISACA South Africa Chapter for the professional designation.
- 3.2 The completed application form and any required supporting documents must be submitted to the ISACA South Africa Chapter office.
- 3.3 The application will be reviewed for completeness by the ISACA South Africa Chapter administrator.
- 3.4 The ISACA South Africa Chapter office has access to verify a member's proof of good standing and will confirm work experience by calling the referees indicated on application form.
- 3.5 The Administrator will submit all applications, with their supporting documents, to the ISACA South Africa Chapter Board together with a recommendation regarding the award in terms of the application's compliance with the established criteria.
- 3.6 The ISACA South Africa Chapter Board will consider all applications received and decide on the awarding of the designation.
- 3.7 The applicant will be informed of the Board's decision in writing by the Board Chairperson.
- 3.8 Successful applicants will be awarded their designations upon payment of the relevant designation fee and signing of acceptance of the ISACA Code of Conduct.
- 3.9 Successful applicants will be required to comply with the ongoing requirements of ISACA South Africa Chapter Continuing Professional Development Policy for the retention of their awarded designation.

POLICY AND PROCEDURES FOR DEVELOPING, AWARDING AND REVOKING ISACA SOUTH AFRICA CHAPTER PROFESSIONAL DESIGNATIONS

3.10 Unsuccessful applicants will be informed of the Board's decision and given the reasons for refusal, in writing, by the ISACA South Africa Chapter Board Chairperson plus a list of remedial actions, if applicable, that are required for the application to be approved at a later date.

3.11 Unsuccessful applicants may appeal against the decision in accordance with the ISACA South Africa Chapter Appeals Policy and Procedure.

4. Appeals Procedure for Unsuccessful Professional Designation Applicants

4.1 All members who have had their application for a professional designation refused are entitled to lodge an appeal against such a decision.

4.2 All appeals must be lodged in terms of the Appeals Process and Policy.

5. Procedure for the Revoking or Suspension of a Professional Designation

5.1 Should a member fail to meet the retaining criteria for the professional designation awarded to him/her, or be guilty of transgressing the ISACA South Africa Chapter Code of Conduct that results in a recommendation that his/her professional designation be withdrawn, the Board will consider the case and decide on a sanction.

5.2 The sanction can include any of:

- A warning with the member being given the opportunity to rectify the situation in a designated time;
- Suspension of the designation for a period of time; or
- Revoking of the designation.

5.3 Members may appeal against such decision of the Board in the manner prescribed above.

6. Review

This Procedure shall be reviewed annually.

7. Amendment History

Revision Number	Date	Author Name & Designation	Amendment comment
0.1	16 July 2019	Arlene-Lynn Volmink (President)	Document Created
0.2		Esther van der Walt (Finance Manager)	Peer Reviewed
0.3		Tania Rhode (Consultant)	Peer Reviewed
0.4	29 June 2020	Esther van der Walt (Finance Manager)	Designation names and qualifications changed

8. Approval

This policy document was approved by the ISACA SA Board of Directors on 31 October 2019.

Appendix 1: Criteria for Awarding a Professional Designation

Information Systems Audit Professional – ISAP (SA)	
An ISAP (SA) is a practicing professional who can operate in management positions or in a specialist role in the field of Information Systems Audit.	
Qualification	<p>A related qualification which includes but is not limited to:</p> <p><u>Bachelor of Commerce: Information Systems/Management/Business Information Systems/Informatics/Financial Accounting:</u></p> <ol style="list-style-type: none"> 1. Bachelor of Commerce in Information and Technology Management (71889) 2. Bachelor of Commerce: Information Systems (4431) 3. Bachelor of Commerce in Business Informatics (101104) 4. Bachelor of Accounting (90622) 5. Bachelor of Commerce in Accounting Sciences (7033) 6. Bachelor of Accounting Science (5535) 7. Postgraduate Diploma: Management: Financial Accounting (15497) 8. Postgraduate Diploma in Accounting (5191) <p><u>Bachelor of Science:</u> Computer Science/Informatics/Information Technology/Mathematical Science</p> <ol style="list-style-type: none"> 1. Bachelor of Science Honours: Computer Science (4503) 2. Bachelor of Science in Informatics (79786) 3. Bachelor of Science: Information Technology (50363) 4. Bachelor of Science in Information Technology (80887) 5. Postgraduate Diploma: Mathematical Sciences (66511) <p><u>Bachelor of Arts:</u> Humanities with Socio Informatics (71650)</p> <p><u>Bachelor of Technology:</u> Financial Information Systems</p> <ol style="list-style-type: none"> 1. Bachelor of Information Technology in Business Systems (97804) 2. National Diploma: Financial Information Systems (80163) <p><i>Or another related qualification at a minimum of an NQF level 6 rating</i></p>

POLICY AND PROCEDURES FOR DEVELOPING, AWARDING AND REVOKING ISACA SOUTH AFRICA CHAPTER PROFESSIONAL DESIGNATIONS
