

ISACA New York Metropolitan Chapter Partner with NYU Tandon School of Engineering and ISACA Global to Offer Cybersecurity Learning Opportunities

Author: ISACA New York Metropolitan Chapter

Date Published: 4 November 2020

New York, NY – ISACA New York Metropolitan Chapter is proud to announce partnership between ISACA New York Metropolitan Chapter, the New York University Tandon School of Engineering and ISACA, the Global learning organization and technology association. This partnership will further educational and credentialing opportunities for students and the cybersecurity community.

As part of this collaboration, faculty and members of NYU Tandon and ISACA New York Metropolitan Chapter will engage together in workshops, conferences, seminars and other events to promote the sharing of ideas, knowledge and best practices.

ISACA New York Metropolitan Chapter, and its members will support NYU Tandon School of Engineering students with mentorship, training, immersive learning, networking, and career development opportunities.

“We are excited to help launch this innovative and ground-breaking initiative that has resulted in a collaborative partnership offering a plethora of opportunities to NYU students and ISACA members. Our vision is to bridge the divide between the classroom and the boardroom,” said New York Metropolitan Chapter President, Karen V. Alexander.

ISACA Global will offer the CSX Cybersecurity Practitioner (CSX-P) certification and one-year ISACA student membership at a discounted price to NYU Tandon students.

NYU Tandon will extend a 75% scholarship to all ISACA members who are accepted into the NYU Cyber Fellows Program. Additionally, NYU Tandon will offer 15% off of tuition to all other NYU Tandon online or on-campus graduate degree programs.

New York Metropolitan Chapter members who are interested to learn more about NYU Cyber Fellows Program that offers a 75% scholarship for ISACA members, or other graduate degree programs offered by NYU Tandon that offer a 15% discount should attend the following webinar on **Nov 10 2020 3:30 PM - 4:30 PM (EST)**: <https://act.online.engineering.nyu.edu/acton/form/9709/0267:d-0007/1/-/-/-/-/index.htm>

As part of the ISACA student membership, NYU Tandon School of Engineering students will be able to access networking and mentorship opportunities offered by ISACA New York Metropolitan Chapter.

Nasir Memon, Vice Dean, NYU Tandon School of Engineering, explained that “ISACA members worldwide will now be eligible for the most radically affordable online cybersecurity master’s degree program offered by an elite private university in the United States. Created in collaboration with industry partners including Booz Allen Hamilton, TIAA, and Goldman Sachs, the NYU Cyber Fellows program is designed to rapidly scale the national talent pool in response to the critical shortage of frontline cybersecurity experts, giving our graduates the precise skills that employers acutely need in the new-normal threat environment.”

The partnership was envisioned, initiated, and facilitated by the New York Metropolitan Chapter’s president Karen Alexander and Academic Relations Committee comprising of Chair Eugene Levin, Co-Chair Emanuell James and Deputy Barry Dynkin. The committee followed its goal to fuse boardroom with the classroom, and to help develop the next generation of Cybersecurity leaders.

“Partnership between ISACA New York Metropolitan Chapter, NYU Tandon School of Engineering, and ISACA Global will create exciting new opportunities for both students and chapter members” said New York Metropolitan Chapter Chair of Academic Relations Committee, Eugene Levin.

About the New York University Tandon School of Engineering

The NYU Tandon School of Engineering dates to 1854, the founding date for both the New York University School of Civil Engineering and Architecture and the Brooklyn Collegiate and Polytechnic Institute. A January 2014 merger created a comprehensive school of education and research in engineering and applied sciences as part of a global university, with close connections to engineering programs at NYU Abu Dhabi and NYU Shanghai. NYU Tandon is rooted in a vibrant tradition of entrepreneurship, intellectual curiosity, and innovative solutions to humanity's most pressing global challenges. Research at Tandon focuses on vital intersections between communications/IT, cybersecurity, and data science/AI/robotics systems and tools and critical areas of society that they influence, including emerging media, health, sustainability, and urban living. We believe diversity is integral to excellence, and are creating a vibrant, inclusive, and equitable environment for all of our students, faculty and staff.
