HAPPY NEW YEAR MEMBERSHIP!

I hope you were all able to celebrate the new year celebrating with loved ones. By now, you are all probably settled into the new year, completely over COVID-19, and looking for some change! I wish you all that you wish for.

2021 was a very, very productive year as you have seen through each one of our monthly updates. We plan on continuing to hit the ground continuing to drive this change and enhance your Chapter experience. Here are some changes and events we have in store for you all:

**The Leadership Series**

We have received all your feedback and it was overwhelmingly good. It sounds as though most of the attendees liked the format, time, and panel outline as it stood with Jim Ambrosini’s spotlight. We will continue that for this second edition with Nigel James, Managing Director of Morgan Stanley, as he focuses on the “Identify” principle in leadership.

Don’t forget to register -> [https://bit.ly/ISACANYLEADER2](https://bit.ly/ISACANYLEADER2) as this event is only weeks away (February 22nd at 11:30 EST). Nigel James will be speaking on leadership principles that have elevated him and his team throughout his career.

We want to hear from you on this initiative. If you have anyone you believe would be a great speaker, whether for the Leadership series, or one of our coffee breaks, please email Hemavathy Loganathan (hemavathy.loganathan@isacany.org) with some of those insights. We are interested.

If you missed it, we will have the last event’s video hosted on the [HTTP://ISACANY.ORG](HTTP://ISACANY.ORG) home page. Please note that public replay would not qualify for CPE credit. However, I strongly suggest watching it as the value of the content is priceless and will also set the stage for the next iterations of this series.

A Recap on the Overall Leadership Series <- All leadership contexts will be available on the chapter website starting next month.
The Investment
“The Leadership Series” is something that has been a considerable investment from the ISACA Metropolitan New York Leadership Team. Professional affiliations, financial investment, and Chapter and Cross Industry partnerships have been leveraged to bring this program to you all. I wanted to take my newsletter airtime to spotlight this amazing series. The series’ success is contingent on all of us promoting it to not only our membership but anyone we believe could benefit from the advice, perspectives, and leadership topics being spotlighted by our spotlighted leaders. For this reason, we have opened registration to all, despite chapter affiliation. We have also made the first few series free of charge to expose this program to those that could feel true value coming from it.

What is “The Leadership Series”
“The Leadership Series” is an ISACA Metropolitan New York Chapter Original. The series follows the chapter’s recent focus on providing the membership additional coaching, leadership, and support guidance through their career continuum. The series will spotlight one “Leader’s Leader” every other month. The spotlight leader provides their experience and insights on leadership principles and anecdotes that they have leveraged to help get them and their teams to where they are while maintaining congruencies with Lions Pride Leadership’s framework.

We Answer your Questions (A Recap)
After each leader’s presentation will come a short panel to address any questions the membership has for the speaker, Chapter President or Lions Pride Lead, live.

You Drive the Trajectory of the Program (A Recap)
The month after each spotlight will be a survey to the membership understanding what they appreciated, what they desired to see change, and understand any areas of focus that the next speaker could focus on. This information will be aggregated with Lions Pride Leadership and help transform the message and focus by the next speaker.

This Series is a Pilot
This series is a one-year Pilot intended to guide the ISACA Metropolitan New York Chapter and Affiliates’ membership. The success of the program will inform the continuance of the program.

Industry and Solution Agnostic
This series is intended to be industry and solution agnostic. This means the leadership principles apply to all!

After Each Event
All attendees will receive a detailed questionnaire on the makeup and flow of the past event. These questions will allow our leadership to work with our Lions Pride Leadership coaches and our next speaker to change the delivery of the next presentation.

As discussed previously, this continuum is adaptive- the delivery, focus areas, look and feel is highly dependent on the feedback we receive from you all. If we want more freestyle from the presenter and fewer slides, if we want more time for a Q&A panel, a larger panel, more training, fewer perspectives, etc., it can be done as you all help set the tone on delivery. You are all in the driver’s seat. The principles are proven, the delivery can be customized to how you all collectively see fit.

Note: The guidance is not legal or intended to influence the membership to change their career continuums. Each part of the series is primarily focused on providing personal insights of the speakers to the membership in a mentorship capacity. Any decisions made by attendees are their decisions alone.

Wasserman
ISACA New York Metropolitan Chapter is currently seeking nominations for the 2022 Joseph J. Wasserman Award. The Joseph J. Wasserman Award is presented by the Chapter at its Annual Gala/Wasserman Award Dinner, in June or July. This award has been bestowed annually since the Chapter’s inception in 1978 and recognizes Outstanding Achievement and Contribution to the Information Systems Audit, Control, Security, Risk Management, and/or Governance professions (the “Community”.)

Nominees must have made a significant contribution and be currently active in the Community. Essential characteristics include integrity, humility, non-self-promoting, selfless dedication to enriching the Community and motivation for the best interests of the ISACA membership.

For more information, visit -> https://engage.isaca.org/newyorkmetropolitanchapter/aboutchapter/wasserman-award-nomination

Website Updates
For your convenience, we have made some updates to the chapter’s website HTTP://ISACANY.ORG.
Newsletters:
All past newsletters can be found hyperlinked on the title bar of the homepage

Past Presidents
We wanted to celebrate our past leadership by providing a “face to the name” so to speak. All past presidents are hyperlinked to their LinkedIn homepage where available. Feel free to link with them and share your experiences. I am sure they will be glad to hear from you.

What Is Next
We plan to update the website to show you all the leadership that helps run the chapter’s day-to-day operations. They deserve the credit for all their hard work. Feel free to link with them!

Immediate Upcoming Events
- FEB 7 12-1PM Coffee Break with Kevin Costello: From ITGCs to Cyber — How to Broaden Your Audit Skills
- FEB 22 11AM-12:30PM EST The Leadership Series - A Leader's Perspective: Spotlight Two - FREE EVENT
- FEB 9-11 9AM-5PM EST Spring 2022 Vulnerability and Penetration Testing Review
I wish you all a happy, healthy, and safe start to the new year. I pray that you are able to all disconnect from work, and able to spend time with your loved ones.

Stay Safe & Awesome New York,

SheLeadsTech Subcommittee

Christina Cruz  Christeen Russell  Alyssa Vumbaco
What is SheLeadsTech?
SheLeadsTech is a women-focused program which works to increase the representation of women in Technology leadership roles and the Technology workforce. Powered by a vast global network of women IT professionals dedicated to supporting others, SheLeadsTech provides women with mentorship, leadership training, and skills training to grow and excel within the industry.

We at ISACA NY Metro support and recognize these strong women who push the industry forward. The Women in Tech (WIT) Spotlight Program highlights movers and shakers in the Technology field.

Call to Action!
Each quarter, SheLeadsTech highlights a woman in Technology or Cybersecurity to celebrate her professional accomplishments. We are looking for YOU to submit nominations for the Women in Technology Spotlight!! Nominations are currently being accepted. Submit your nomination using the link here.

Join our SheLeadsTech Task Force
We are forming a task force to support the ISACA New York Metro SheLeadsTech initiative. The group will be tasked with helping to build a stronger SheLeadsTech community within our chapter. This will include idea generation, event planning, execution, speaking opportunities, etc. It's a great way to network and meet with others in the New York Metro area that are passionate about growing the representation of women in the technology sector. We have already started to assemble a phenomenal team and are looking for a few more members who are passionate about this initiative to join our task force. If interested in joining please email sheleadstech@isacany.org.

Have questions or ideas for future SheLeadsTech events? Contact SheLeadsTech@isacany.org.

Emerging Professionals Subcommittee
Christina Cruz  Alyssa Vumbaco

Introduction: The Emerging Professionals (EP) Committee focus on members new to the profession (under 7 years of experience) and younger members (40 and under) representing the future of the profession. We provide guidance and networking opportunities as emerging professionals navigate through the early stages of their career.

Coffee Break with Kevin
Registration is now open for our first Coffee Break chat of 2022. Free for all ISACA NY Metro members, plus earn 1 CPE. See below for details.
To register click the following link: https://cvent.me/badBGk
We are underway with planning additional events for 2022. If you have ideas for an upcoming event or are interested in speaking or participating, please reach out to us at emergingpros@isacany.org.

**Top Four Under 40**
Top Four Under 40 is an annual program that recognizes four ISACA New York Metro members under 40 in the IT Audit, Cybersecurity, and/or GRC space that have contributed extensive value to the team and company in which they work. They go above & beyond and we want to recognize them for their contributions to our sector. The Four Emerging Professionals are honored at our annual recognition event and highlighted on our social media channels. They also score a seat at future exam review classes (worth approximately $600)! Note: The emerging professional must be a New York Metropolitan Chapter Member to be eligible.

Top Four Under 40 Recognition Award nomination form can be found here.

**Training and Development Committee**
**CERTIFICATION & EDUCATION**
Committee Chairpersons –
Chairperson: Ms. Kwongmei (May)
Co-Chairperson : Mr. Lance Flocco

ISACA’s top priority, as we all navigate the COVID-19 pandemic, is you and your well-being. ISACA has been actively working towards a live remote proctoring option for all certifications and certificate exams starting April 2020. Please refer to the isaca.org website for further information on how to register and take the desired exam within one year.

While you are getting out of Pandemic lockout, why not knock out a couple of certifications for your career?

**Special announcements:**
- Due to the COVID-19 Pandemic all 2021 certification exam review classes will be provided as a live broadcast webinar only. No onsite classes.
- For those who will be appearing for any exam at home, please be sure to use a personal laptop instead of a company’s laptop as there have been issues when doing that during the exam.

The New York Metropolitan Chapter continues to offer certification and certificate exam review classes for CISA, CISM, CRISC, CGEIT, CDPSE, CSX Auditing (CSX-A), CCAK and CCSK.

In addition, we are also offering a few new classes as well. JAY RANADE, who has been teaching ISACA certification exam review classes for our chapter since 2006, will be teaching all exam review classes for the year 2021 hosted by New York Metropolitan Chapter. Please mark your calendar for the upcoming exam review classes in 2021. EARLY BIRD Registration rates are now open for all certifications. DON’T WAIT, SAVE NOW.

At last the Training & Development Committee would like to wish all readers are happy and safe holidays!!!

### Spotlight Topic

#### #1 Microsoft Details How it Stopped the Largest Ever Distributed Denial of Service (DDoS) Attack.

This month, Microsoft had revealed that it stopped the largest distributed denial of service (DDoS) attack ever reported in history. The DDoS attack occurred this past November and was reported at 3.47 terabytes (Tbps) per second. The largest reported DDoS attack before this was recorded at 2.4 Tbps. This measurement of Tbps for massive DDoS attacks is beginning to become the norm as of late, according to Alethea Toh, a product manager on the Microsoft Azure networking team. According to Aletha, Microsoft stopped two additional (2.5 Tbps and over) DDoS attacks in December. The 3.47 Tbps DDoS attack vector was a UDP “reflection attack.” These attacks consist of UDP requests and response packets reflecting within a local network while using a source Internet Protocol (IP) address that the attacker has spoofed. Moreover, roughly 55% of DDoS attacks in 2021 relied on UDP spoofing, which became the primary vector in the second half of 2021.

#### #2 Log4j Flaw Will Lurk in Systems for Years to Come

The Apache Software Foundation disclosed Log4Shell in its Log4J library on December 9th. Nearly a month after the attack, the US Cybersecurity Agency (CISA) said it hasn’t seen any major breach arise from the attack since, except for an attack on the Belgian Defense Ministry. Even with the lack of instant mass exploitation, Sophos security’s Chester Wisniewski believes it will be a target for exploitation for years to come. CISA has also warned that attackers may be waiting to use access gained through Log4Shell until alert levels fall. This would allow the attackers to lay dormant within a network, waiting to deploy malware months later. Wisniewski also agrees with CISA’s stance. Wisniewski understands that internet-facing applications will be patched or taken offline. He believes that this will leave many internally vulnerable systems that the Log4j flaw might have never been discovered, and therefore cause Log4Shell to be the favorite target for penetration testers and state-backed actors.
