

ISACA Phoenix Chapter Job Posting Form

GoDaddy	
*Position Title:	Senior Technology Risk Analyst
*Location:	Tempe, AZ (Open to remote)
*Position Type:	Full-time
Compensation:	Salaried
Start Date:	ASAP
Number of Openings:	2-3

***JOB DESCRIPTION**

We are looking for a Technology Risk Senior who loves helping our business partners and constantly learning new things. We are a multifaceted and growing company that loves what we do and are looking for passionate people to share our vision. We focus on distilling compliance and risk concepts to their core principles, enabling us to envision creative solutions for our partners.

The ideal candidate will be passionate about doing the right thing for the company and growing with the team. If you want to work with smart people doing work that enables our business partners to build amazing products, we would like to talk to you!

What you'll get to do...

- Provide guidance in your area of expertise to business partners and team members
- Plan and lead projects to document processes, identify risks and evaluate control design
- Coordinate compliance framework implementation and governance projects
- Collaborate with partners to design appropriate remediation strategies
- Organize and coordinate external audit projects within scope, timeline and budgets
- Design and code automated tests supporting real-time risk management strategies

***JOB REQUIREMENTS/QUALIFICATIONS**

Your experience should include...

- Bachelor's degree in Business, IT Security, Engineering, or a similar subject area
- 5 to 7+ years' experience with IT compliance, risk management, information security, audit or a related focus
- Expertise in at least one system or compliance area.
- Significant experience partnering with internal stakeholders and external auditors, including handling minor issues and clearing roadblocks
- High degree of creativity and problem-solving aptitude
- Ability to work well with a team and on individual projects as assigned
- Strong desire to learn from and train other team members

You might also have...

- May have or be pursuing industry relevant certifications (CGEIT, CRISC, PCI-ISA, CISSP, CISA, ISO27001 LA)
- Experience with SOC reporting, WebTrust, PCI, SOX, PCI-DSS, ISO 27001, NIST, and CIS a plus
- Experience working with Agile methodologies
- Experience coding small programs (PowerShell, SQL, VBA, etc.) a plus
