

**CISA EXAM PREPARATION COURSE:
MONDAY 13 - FRIDAY 17 Mai 2019
At PWC, GASPERICH**

GENERAL INFORMATION

Scope of exam preparation courses

The preparation courses focus exclusively on the essential areas covered in ISACA certification exams they relate to. The course covers the core sections and a series of sample exam questions that provides participants with a "feel" of the format and the types of questions encountered during the exam. The correct answers of each question are also reviewed for a better understanding of expectations of the ISACA Certification Board. **This interactive course is an ideal way to prepare for the exam.** Participants gain valuable experience reviewing these core sections and answering sample exam questions with experienced instructors while strengthening their skills and building confidence.

Number of participants

We limit the number of participants to 15 (min. 5 participants) in order to provide a high-quality interactive learning experience.

Registration process

Fill in the following registration form and send it by email to isacalux@gmail.com with title "Exam preparation courses"

You will receive within maximum 1 week an email confirming your registration.

**CISA EXAM PREPARATION COURSE:
MONDAY 13 - FRIDAY 17 Mai 2019
At PWC, GASPERICH**

Who should attend: Anyone taking or considering taking the CISA examination; anyone seeking an overall understanding of essential IT risks and controls. CISA is recognized worldwide, by all industries, as the preferred designation for information systems (IS) governance, assurance and security professionals.

What you will learn:

Domain 1—The Process of Auditing Information Systems (21%)

Provide audit services in accordance with IT audit standards to assist the organization in protecting and controlling information systems.

Domain 2—Governance and Management of IT (16%)

Provide assurance that the necessary leadership and organization structure and processes are in place to achieve objectives and to support the organization's strategy.

Domain 3—Information Systems Acquisition, Development, and Implementation (18%)

Provide assurance that the practices for the acquisition, development, testing, and implementation of information systems meet the organization's strategies and objectives.

Domain 4—Information Systems Operations, Maintenance and Support (20%)

Provide assurance that the processes for information systems operations, maintenance and support meet the organization's strategies and objectives.

Domain 5—Protection of Information Assets (25%)

Provide assurance that the organization's security policies, standards, procedures and controls ensure the confidentiality, integrity and availability of information assets.

What you will experience:

A full day at the end of the course dedicated to a **trial exam session** covering the 5 CISA domains and to the correction with detailed explanations on the answers.
