Speaker:

George Titus,
Executive Director,
Technology Risk &
Cybersecurity, KPMG

What you'll learn at this Half-Day Talk

Understanding CNAPP

CNAPP and its role in integrating cloud security capabilities such as CSPM, CWPP, CIEM, container security, vulnerability management and IaC security.

Continuous Monitoring

Explore how CNAPP continuously monitors cloud environments for misconfigurations, vulnerabilities, identity risks, exposed resources, workload threats and compliance gaps.

Alert & Risk Analysis

Demo of how CNAPP alerts can be reviewed, correlated and prioritised based on factors such as asset criticality, exposure, vulnerabilities, privileges and potential business impact.

Automated Compliance Reporting

View how CNAPP continuously assesses cloud environments against global.

CNAPP Continuous Monitoring Demo

Live demonstration covering asset discovery → detection of security issues → risk correlation → alert analysis → remediation → continuous validation → compliance reporting.

Speaker's Profile

George Titus is an Executive Director in Technology Risk & Cybersecurity at KPMG Malaysia, with over 20 years of experience in the IT industry. Specialising in cloud strategy, cloud security, cybersecurity, and technology risk management, he has worked with organisations across telecommunications, aviation, fintech, banking, and oil & gas. George helps organisations navigate technology and cloud transformation with confidence, enabling them to adopt emerging technologies securely, strengthen resilience, and drive meaningful business outcomes.
