Internal

About the training

ISACA Malaysia Chapter is organizing this intensive training to prepare you for the CISA certification examination. The accredited trainers will focus exclusively on the essential domain areas covered by the examination and will be training you by solely using only training materials that have been approved by ISACA Global. All the trainers have valuable working experience with technical skills and knowledge to complement their training delivery.

CISA certification is foundational to a successful IT career. If you are an entry-level to mid-career professional, CISA can showcase your expertise and assert your ability to apply a risk-based approach to planning, executing and reporting on audit engagements. Gain instant credibility in your interactions with internal stakeholders, regulators, external auditors, and customers.

Who should attend

This training is suitable for professionals with work experience in information systems auditing. Some relevant job title might include:

- IS/IT Auditors
- IS/IT Consultants
- Security Professionals
