

BECOME A

CERTIFIED INFORMATION SECURITY MANAGER

PREPARE FOR THE CISM EXAM IN JUST THREE DAYS

Wednesday 14 October till Friday 16 October 2020
Co.Station Brussels

Become the information security manager your company needs

Whether you are looking to take the ISACA CISM examination or just seeking an overall understanding of essential information security management, our bootcamp will tell you all you need to know—but were afraid to ask—in the shortest time possible. You will be drilled on managing information security and provided with sample exam questions.

Our bootcamp covers the core sections of the CISM exam. All participants gain

valuable experience reviewing and answering sample exam questions with an experienced CISM instructor while strengthening their skills and building confidence. You will be able to face the exam and any security issues your company might endure.

Learn to establish and maintain an information security governance framework, enable supporting processes and align the information security strategy with organizational goals and objectives.

Become an expert in analyzing and managing information risk to an

acceptable level, in accordance with organizational risk appetite. Facilitate the attainment of organizational goals and objectives.

Develop and maintain an information security program that identifies, manages and protects the organization's assets while aligning with business goals.

Continuously plan, establish and manage detection, investigation, response and recovery from information security incidents in order to minimize business impact.

A CISM CERTIFICATION

- Boosts your earning potential
- Quantifies and markets your expertise
- Demonstrates that you have gained and maintained the level of knowledge required to meet the security challenges of a modern enterprise
- Enhances your professional credibility and recognition
- Is a great asset when looking for another job opportunity
- Combines the achievement of passing a comprehensive exam with recognition of work and educational experience, providing you with credibility in the marketplace
- Increases your value to your organization
- Helps you achieve a high professional standard through ISACA's requirements for continuing education and ethical conduct

GET RECOGNIZED AS AN EXPERT

In just three days, we will prepare you for the CISM exam, away from your desk and any possible distractions. Learn from the questions of your classmates and the thorough experience of your instructors. They will take you through the theory and put that theory into practical examples. Their tips and tricks will prove to be essential if you want to pass this test.

WHY ISACA BELGIUM?

ISACA Belgium is a non-profit organization and is part of ISACA International. We believe that it is our duty to promote the profession and help potential CISM-certified people get the proper official preparation at the lowest cost possible. Our trainers are all accredited, ensuring you they have the right knowledge and skills to effectively transfer knowledge as quickly as possible.

WHY AT CO.STATION BRUSSELS?

Co.Station Brussels is located only 300 meters from the Central Station, so it can be reached via different means of transport, making it one of the most accessible location in Brussels.

Did we mention the fabulous view? Check out the beauty of the Saint-Michel-et-Gudule Cathedral during the bootcamp. Fly in, drive in, bike in or just take the train and walk in!

Place Sainte-Gudule 5, 1000 Brussels

ANY QUESTIONS? YOU MIGHT FIND THE ANSWER RIGHT HERE!

Who should attend this CISM training?

Anyone taking or considering taking the CISM examination; anyone seeking an overall understanding of information security management. CISM is designed for Information Security Managers, Security professionals and IS/IT Consultants.

How many CPE credits do I receive?

20 CPE credits

Is following this training sufficient for me to pass this exam successfully?

We will prepare you the best we can and make sure you received all theory by the end of the bootcamp. Yet, any ISACA exam is a 100% individual challenge and you will need to continue to rehearse the course materials and the sample questions after the boot camp until the exam. The CISM exam is not

a “know by heart” exam, but an exam with multiple choice questions testing your practical knowledge and experience as an Information Security Manager.
