Privacy Information Management System – Key Changes & Implications

EVENT OVERVIEW

Join our exclusive webinar to explore the transformational changes in ISO/IEC 27701:2025, released October 14, 2025. This updated international standard redefines how organizations manage personal data and demonstrate privacy accountability.

**FREE
WEBINAR**

KEY CHANGES SUMMARY

Change	Impact
Stand-Alone PIMS	No longer dependent on ISO 27001. Independent certification now accessible
Clearer Structure	Annex SL alignment (Clauses 4–10) with explicit requirements vs. guidance distinction
Leadership Accountability	Enhanced top management role in privacy governance—now a board-level responsibility
Measurable Metrics	Quantifiable privacy KPIs and auditable performance (Clause 9)
Global Alignment	Direct mappings to GDPR, CCPA, AI, and cross-border regulations
Risk-Based Operations	Privacy-centric risk thinking integrated into Clauses 6–7 with clarified controller/processor roles
Privacy-by-Design	DevSecOps integration with automated data lifecycle management

TRANSITION TIMELINE

Audience	Timeline	Action
Current Certified	24–36 months	Migrate from 2019 to 2025 edition
New Applicants	Immediate	Certify directly under 2025 edition

WEBINAR HIGHLIGHTS - Format: 60-minute interactive session | Expert-led

Topics:

- Structural changes (Clauses 4–10) and implementation insights
- Leadership accountability & measurable privacy metrics
- Live Q&A with certification specialists
- Gap analysis: transitioning from 2019 to 2025
- Privacy-by-design in cloud, cross-border, and AI contexts

Target Audience: CISOs, Privacy Officers, Compliance Leaders, Security Professionals, DPOs, HR Training Consultants, Audit & Governance Teams

Exclusive Resources: Transition roadmap, gap analysis framework, control mapping guide, 30-day session access

Date: 13th December 2025 Time: 4 PM TO 5 PM
