The ISO/IEC 27701:2025 PIMS Lead Implementor Training is designed for professionals aiming to establish, implement, manage, and improve a Privacy Information Management System (PIMS).

This program provides practical guidance to integrate privacy controls within an existing ISO/IEC 27001 framework and ensure effective protection of Personally Identifiable Information (PII).

What You Will Learn?

- Understanding ISO/IEC 27701:2025 requirements
- Integration of PIMS with ISO/IEC 27001 ISMS
- Roles & responsibilities of PII Controllers & Processors
- Monitoring, measurement, and improvement of PIMS
- Compliance with global privacy regulations
- Implementation of privacy controls

Course Highlights

- Concise comparison: 2019 vs 2025
- Clause-by-clause impact analysis
- Practical transition roadmap
- Implementation & documentation guidance
- Certification transition readiness checklist

Who Should Attend?

Ideal for professionals such as:

- Existing ISO/IEC 27701:2019 certified professionals
- Privacy & Data Protection Officers (DPOs)
- ISMS / PIMS Implementers & Auditors
- GRC, Compliance, and Information Security professionals

Learning Outcomes

Participants will be able to gain:

- Identify and interpret key changes in ISO/IEC 27701:2025
- Assess the impact on existing PIMS
- Plan and execute a structured transition
- Support audits and certification upgrades with confidence

Date: 1st 2nd & 3rd May 2026
