

ISO 42001 ARTIFICIAL INTELLIGENCE LEAD IMPLEMENTER TRAINING

The **ISO 42001 Artificial Intelligence Lead Implementer** Training is a specialised program designed to equip professionals with the expertise to implement and manage an **Artificial Intelligence Management System (AIMS) aligned with ISO/IEC 42001**.

This standard provides a framework for organizations to **manage AI technologies responsibly, ensuring compliance** with ethical principles, regulatory requirements, and organizational goals.

Participants will gain practical knowledge of **governance, risk management, and operational controls specific to AI systems**, enabling them to design and implement trustworthy, transparent, and efficient AI frameworks.

KEY HIGHLIGHTS OF THE COURSE INCLUDE:

- Understanding the principles and requirements of ISO 42001.
- Implementing governance structures and operational controls for AI systems.
- Strategies for addressing risks, ethical considerations, and regulatory compliance in AI.

EXPECTED OUTCOMES

By the end of the program, participants will:

- Understand the core principles, guidelines, and controls of ISO 42001.
- Gain the ability to design, implement, and maintain an AIMS tailored to organizational and industry needs.
- Develop strategies for ensuring ethical AI practices, including transparency, accountability, and bias mitigation.
- Learn to conduct AI risk assessments and establish governance frameworks.
- Participants will receive a certification of completion, signifying their proficiency in implementing responsible AI systems aligned with ISO standards.

WHO SHOULD ATTEND?

This program is ideal for:

- **AI Engineers and Data Scientists:** Professionals developing or managing AI systems seeking to align their work with ISO 42001 standards.
- **Compliance Managers:** Individuals ensuring adherence to AI regulations, ethical standards, and organizational policies.
- **Technology and Innovation Managers:** Professionals leading AI initiatives within organizations.

Date: 30th, 31st January & 1st February 2026 **Time: 24 hours Session** **Days: 3**
