

BANNERS

The **survey banner** organizes survey results by groups for visual and statistical comparison.

Standard banners are included as part of the survey package. The **Standard Benchmark Banner** displays results by the groups surveyed (e.g., students, parents, trustees). Statistical comparisons are made with the benchmark group of similar schools responding to the survey over the most recent 10-year period. The **Standard Intraschool Banner** compares responses from each constituent group with the others.

Custom banners can be defined by any closed-end standard or custom question to compare survey data groups. Frequently used custom banners include division, comparative year (if the school has taken the ISACS survey previously), and alumni. Schools can also define their own comparison groups.

NOTE: You can always order additional banners at any time after the survey closes.
