

Illinois Speech-Language-
Hearing Association

CORPORATE MEMBERSHIP

To empower aspiring and practicing audiologists, speech language pathologists, and assistants through advocacy, education, collaboration, mentoring, and networking.

Thanks for your interest in ISHA's Corporate Membership!

Why become an ISHA Corporate member?

ISHA's corporate membership program provides an opportunity for companies and other organizations to build collaborations with ISHA that are more focused on the relationship and less on a transaction.

While fully acknowledging the marketing and fiscal benefits of corporate membership to both the organization and ISHA, a greater emphasis is on the nature of the nonprofit as contributing to and supporting the industry in which the company or organization operates, thereby building recognition that supporting ISHA is an end in itself – and beneficial to the corporate member, the profession and the human beings served by the profession.

Who's eligible to join?

ISHA Corporate Membership is for companies, consultancies, nonprofits, and government agencies and institutions that operate both within and outside of the speech language hearing field.

What are the benefits of corporate membership?

ISHA offers corporate members access to critical marketing opportunities and exposure to speech language hearing professionals through multiple communication channels. These include digital publications, website and social media, as well as sponsorship opportunities at ISHA's Annual Convention.

We invite all companies and organizations in ISHA's network to become corporate members and collaborate with us to serve our shared commitment:

To empower aspiring and practicing audiologists, speech language pathologists, and assistants through advocacy, education, collaboration, mentoring and networking.
