Purchase Order Number (if available) _____

*Promotional discounts may be provided to MASBO members based on association events.

For multi-year subscription discounts please call Dan Romano at Edventures in Learning (419) 725-0077.

Map (Updated 2017)	Description
<i>LifeSpan</i> – Preparing Children for the Journey of a Lifetime	This current realities or <i>case for change</i> tool focuses on the changes from yesterday to today in our homes and the world of work, and the implications these changes have on today’s educational system.
<i>Financing Our Future (customized to Massachusetts School Finance)</i>	A financial literacy application that creates learning around the sources and drivers of a district’s revenues, how the funds are spent, and the implications these have on the outcomes of education.
<i>Planning Our Future</i> – Exploring Elements of Our Strategic Plan	This tool focuses on the multiple components of a strategic plan from the Mission/Vision to the strategic initiatives and action plans allowing stakeholders identify their role and go forward actions.
<i>Managing Chaos</i> – Exploring the Critical Elements of Handling School Safety Incidents	This map focuses on the <i>Incident Command System</i> . It enables all stakeholders to know and understand the critical responsibilities and activities leadership and staff take on should an incident occur.
<i>Playing It Safe</i> – Advancing the Conditions for Learning	This map creates the platform for stakeholders to understand that learning thrives within a safe and supportive learning environment. Creating that environment is up to all stakeholders.
<i>The Great Divide</i> – Bridging the Gap Between Leaders and Doers	The tool bridges the gap between the line of sight of leaders (who generally see the big picture realities) and hands-on experiences of front-line stakeholders (who have their hands on the levers of change).
<i>Rural Transformation</i> -Exploring the Changing Trends that are Impacting Our Children’s Future	With a focus on rural school districts, this application explores the trends outside of our schools which inevitably we must respond so that our students become college and career ready.
<i>Aligning Our Efforts</i> – From Dialogue to Action	Once a strategic go-forward is defined, school leaders can use this tool for stakeholders to define their role and the necessary actions they need to take to make the district vision a reality.
<i>The Strategic Planning Template Series</i> – Tools for Strategic Planning	This series of templates allows leaders and facilitators to create a “visual meeting” that assists organizing, capturing, and creating the components of a strategic plan.
