LUNCH AND LEARN

Where Great Ideas Are Served

SOLECT ENERGY PRESENTS:

Energy Affordability for Schools: Lessons Learned from Fitchburg's Solar Projects

Gain a clear understanding of how onsite solar can be used as a long-term energy affordability strategy for school districts. Learn how federal solar tax credits and state incentives are structured for public entities and how they translate into lower Power Purchase Agreement (PPA) rates and predictable savings. Hear about the results of Fitchburg's projects and be better equipped to evaluate whether solar aligns with your district's budget goals.
