

What Ever Happened to Private Health Insurance Exchanges?

A PRIVATE EXCHANGE EVALUATION COLLABORATIVE (PEEC) WEBINAR

TUESDAY, FEBRUARY 28, 2017

12:00 PM - 1:00 PM ET

A couple of years ago, private exchanges were all the rage. Where are they now? You are invited to participate in a PEEC Webinar on Private Health Insurance Exchanges. This webinar will feature results of the PEEC 3rd Annual Survey and will cover employer views and experiences with private exchanges.

Other questions to be addressed:

- What have early adopters learned?
- How have private exchanges evolved?
- What is next for the private exchange marketplace?
- Have the exchanges influenced employers to offer more choice outside of moving to an exchange?
- Could a private exchange still be right for your company?

The *Private Exchange Evaluation Collaborative* (www.thepeec.com) is an initiative launched by four leading nonprofit business coalitions (Employers Health, Midwest Business Group on Health, Northeast Business Group on Health, and the Pacific Business Group on Health) that educate and advocate for employer health benefit interests, and PwC (not an exchange provider). PEEC's goal is to collect employer and vendor information about private health insurance exchanges and provide unbiased, comparative information and support on private exchange strategies and purchasing decisions.

While this webinar is open to all interested parties, registration is **FREE** for members of the PEEC coalitions and clients of PwC.
