Real Property Law Academy II is the continuation of a new program being taught by some of the most respected and experienced Michigan real estate attorneys, each an expert in their field. The overall program (Academy I and Academy II) is designed to provide a basic understanding of the most fundamental aspects of a real estate practice. It is targeted not only for real estate attorneys, but also for other attorneys who will encounter real estate issues from time to time. The program is presented in two parts: Academy I, which recently concluded, and Academy II. Each part presents eight topics over a consecutive two-day period.
