1. **Secretary's Report.** The Secretary provided a copy of Minutes of the preceding meetings; same were discussed. A motion was made by Tom Roth to accept the Minutes as written, this was seconded by William Housefield. The motion was passed unanimously.
2. **Treasurers' report** was submitted by the Treasurer, Denise LeVasseur. There was discussion held with regards to the projected budget which indicated that the balance of the account for the Section would be reduced by \$11,000.00 if there were not a savings engendered by our actions over the course of the year. Discussion determined that actions and motions being considered by the Section council would hopefully produce a savings of over \$11,000.00 (\$9,000.00 by not financing the Las Vegas trip this year and \$4,000.00 by an electronic newsletter as opposed to a printing). Motion to adopt the Treasurer's report as submitted was made by Member Palmer, seconded by Member DeGraw and adopted unanimously by the Section council.
3. **Director's Report.** Director Jack Nolish discussed the continuing budget crises within the Workers' Compensation Agency and the budget cuts being considered by the State government. Discussion was also held with regards to the activities by Mr. Edward Welch in attempts to determine the means of reducing or improving the Agency's efficiency within the budget as projected for the State of Michigan.

Director Nolish also pointed out the continuing issues with Delphi and American Insurance are being explored by the Agency at this time. Director Nolish also indicated that Magistrate reductions are ongoing and that as of January 26, 2010 there will be a reduction in the number of Magistrates sitting in the Agency.

4. **Appellate Commission Report.** Appellate Commission Chairperson Murray Gorchow indicated the reductions within the Appellate Commission continue. He gave us notice that Magistrate Leventer had given notice that she was moving to a position with the State's Administrative Hearings Office or (SOAR.) Commissioner Gorchow also pointed out that they have reduced library cost within the Appellate Commission's actions by reducing hard copies to only Michigan Reports and the Court of Appeals Reports. All other items are being preserved electronically for the Appellate Commission.
5. **Board of Magistrate's Report.** Magistrate Chris Ambrose reported that the changes in Magistrate's positions are still on schedule to take place on January 26, 2010. There is one vacancy within the Board of Magistrates yet to be filled. No announcement has been made as to who will be filling that position. There was some discussion concerning the event for the leaving Magistrates. The Workers' Compensation Section Council discussed the matter within the confines of this meeting. Magistrate Ambrose further indicated that the Workers' Compensation College for Magistrates might be delayed this year to the end of February or early March. The previous assignments with regards to Magistrates throughout the State after the change on January 26, 2010 are being refined and that the new description of the assignments will be presented after January 25, 2010. Magistrate Ambrose indicated that new Magistrates will be moving into seats formerly held by departing Magistrates. That the parties in cases will appear on the dates currently set. Those cases will be assigned to the judge who appears on that scheduled date rather than reassigning cases to a particular Magistrate. This will save notifying all persons of a different date. In short, all dates will remain the same, the Magistrates will just change.
6. **Old Business.**
  - A. **Magistrate's Event.** Section council had previously discussed the possibility of holding a dinner to recognize the efforts of the Magistrates who are departing as of January 26, 2010. This motion was made by Member Palmer, seconded by Dennis Flynn, and passed unanimously.
