Chair’s Letter from Michael S. Khoury

Activities in the Business Law Section are more than just seminars and council meetings. A lot of the real activity happens with the standing committees of the Section. Take a minute to explore the different committees and contact the committee chairs if you are interested in participating. Activities of the committees are detailed in quarterly reports that are published on our website.

Michigan Business Law Journal

The Journal is the primary publication of the Section, which is always looking for interesting and timely articles. Articles often focus on recent cases and legislative developments, practice tips, or trends in the law. If you are interested in submitting an article, or have a suggestion for a topic of interest, please contact Robert Wilson of Butzel Long, the Section’s publications director.
