I. PUBLIC ACTS

- A. Public Acts 5 and 6 of 2009. Amend the Michigan Business Tax Act to allow the Michigan Economic Growth Authority (MEGA) to enter into up to three tax credit agreements, rather than one agreement, for the construction of an integrative cell manufacturing facility; allow MEGA to adopt a resolution authorizing such an agreement until October 1, 2009, rather than August 1, 2009; and increase from \$70.0 million to \$90.0 million the total MBT credits allowed for expenses for certain vehicle engineering activities. (HB 4515 and SB 0319; effective 4/06/09)
- B. Public Acts 8 and 9 of 2009. Amend the Michigan Business Tax (MBT) Act to allow a taxpayer that calculates and pays estimated payments for Federal income tax purposes pursuant to Section 6655(E) of the Internal Revenue Code, to calculate the estimated payments required each quarter under the Act by using the same methodology as used to calculate the annualized income installment or the adjusted seasonal installment, whichever was used as the basis for the Federal estimated payment. A penalty for underpayment of an estimated tax cannot be assessed for a tax year that ends before December 1, 2009, if the taxpayer paid 75% of the tax due for the tax year. The bill is retroactive and effective for tax years beginning after December 31, 2007. Under the MBT Act, a taxpayer that reasonably expects liability for the tax year to exceed \$800 must file an estimated return and pay an estimated tax for each quarter of the taxpayer's tax year. - C. Public Act 26 of 2009. Amends the section of the Michigan Business Tax Act (MCL 208.1434) which provides tax credits related to the development and application of advanced battery technology. This brings the number of credits available from three to four credits and increases the maximum amount of credits available over four years from \$300 million to \$400 million. The amendments also increase from \$90 million to \$135 million the maximum dollar amount of credits for firms engaged in vehicle engineering to support battery integration, prototyping, and launch expenses. The current limits on credits were recently added by Public Act 6 of 2009 (SB 319). Prior to that, only one credit was available for a facility with a maximum of \$100 million and the limit on vehicle engineering credits was \$70 million. (SB 0466; effective 5/12/09)

The Act also amended the

Michigan Business Tax Act to exempt an insurance company authorized under Chapter 46 or 47 of the Insurance Code from the Act and from the tax it imposes on insurance companies (1.25% of gross direct premiums written on property or risk located or residing in this State).
