8. Miscellaneous.

ICLE has commenced work on the next phase of its business transactions competency map, developed in cooperation with the Section in 2017. It plans to use the map to develop interactive training (using techniques such as demonstrations, branching scenarios and drafting exercises) for one specific competency for now – how to create a closely-held business. Attorneys who complete the training would receive an online certificate. Some Section members who worked on the competency map want to participate in the development of practical education and resources based on the map. ICLE is seeking additional experienced business law practitioners to assist in providing input and advice for this training.

The Business Law Institute and the Business Law Section's Annual Meeting will be held together on Friday, October 5 in Grand Rapids,

Michigan at the JW Marriott. The number of registrants was 94 as of the date of this report.
