

TECHNOLOGY DIRECTORSHIP

REPORT PREPARED FOR THE DECEMBER 2006 COUNCIL MEETING

Submitted by Michael S. Khoury

1. Budget Request for 2006-2007

No separate budget is required. Listserv costs are budgeted administratively or by committees.

2. Use of Budgeted Funds: Not applicable.

3. Next Scheduled Meeting of the Committee: Regular meetings are not scheduled.

4. Council Approval: None required.

5. Accomplishments Toward Committee Objectives

The Section web page is updated on a regular basis by our Section Administrator. Committees and other groups are doing a better job providing information on events or meetings, but the amount of notice is still inadequate to provide publicity for "browsing" members. The State Bar level now has e-commerce capabilities for conference registration and similar matters available for a fee which can assist the Section with event support. I have had discussions with the State Bar on matters related to web site support and am working on a couple of initiatives to improve the usability of the site. Also, the State Bar has established a Practice Management Resource Center that will assist members with technology and other practice-oriented needs.

6. Meetings and Programs: Not applicable.

7. Publications

The "Technology Corner" column in the *Business Law Journal* continues on with occasional bumps.
