Fellows Program

In 2011, the Health Care Law Section Council (Council) established the Fellows Program to recognize former Health Care Law Section (Section) leaders who have made sustained, outstanding contributions to the Section and to the profession of health care law in Michigan. In addition to being a great honor to those individuals selected as Fellows, the Fellows Program provides an opportunity for the Fellows to again become active in the Section and its activities. Importantly, it provides the Section with an opportunity to avail itself of the wisdom and experience of its past leaders.

Fellows include past officers, Council members, committee Chairs or members, and Chairs or members of planning committees of Section educational programs. Fellows are recognized each year at the Section’s annual meeting, and are invited to contribute to the Section in a variety of ways, including presenting at Section programs and teleconferences, and assisting the Section with program planning and outreach.

In September, 2011, the Section selected 10 individuals for its inaugural class of fellows. The Section Fellowship Oversight Committee was created to handle the administration of the Fellows Program and to provide outreach to the Fellows. The Section may select up to 5 additional Fellows each year.

Full List of Section Fellows:
