

MORS Industry Partners

A collaboration with top national security decision-makers

Since 1966, MORS has served the Department of Defense and members of the national security analytic community. Under the sponsorship of the Army, the Navy, the Air Force, the Marine Corps, and the Office of the Secretary of Defense, the objective of MORS is to enhance the quality and effectiveness of operations research and analytics as applied to national security issues. MORS is the professional home for your analyst’s workforce development.

The highlight of the MORS calendar is the annual MORS Symposium. The Symposium is recognized as the premier analytic event in the national security community to exchange information and receive important peer feedback.

Become a MORS Partner to earn exposure, memberships, advertising and more. MORS offers your organization continuous visibility and access within the worldwide military operations research and national security analytics communities.

The MORS Partner Program delivers focused exposure and provides unique opportunities to network and communicate directly with this highly-targeted audience of industry and government decision-makers.

By becoming a Partner, your business can enhance its reputation with clients, create a dialogue with members, and gain exposure through a well-respected and independent source—MORS.

All Partners serve on the Partner Community providing feedback and suggestions for MORS programs and topics. MORS Partners can support their annual marketing and advertising goals through a variety of additional benefits which can include (*depends on level*):

- 12 individual MORS memberships a year
- 4 annual Symposium registrations
- 4, full color ads per year in the *Phalanx* with a circulation of over 1,200 national security professionals
- Free exhibits at select events

Partnerships are available at many different levels. Further information can be found on the reverse side, or at: <https://www.mors.org/Partners/Partner-Program>
