FRP & DUAL LAMINATE TRAINING COURSE

May 7–9, 2024
Huntsman Headquarters

10003 Woodloch Forest Dr, The Woodlands, TX 77380

The Materials Technology Institute's comprehensive three-day FRP and Dual Laminate Training Course covers materials and design fundamentals, manufacturing techniques for pipe and equipment, applicable codes and testing, fabricator qualification, installation, inspection, repair options, and case histories. The course content provides unique, practical information for inspection and maintenance of these materials of construction that is not available elsewhere in the industry.

This course is intended for personnel involved in procurement, inspection, reliability and maintenance of FRP and Dual Laminate equipment and piping. The training material is especially beneficial for personnel new to the use of FRP and Dual Laminates.

The course is instructed by subject matter experts with more than 125 years of combined experience. They bring a wide range of knowledge and have successfully completed numerous FRP and Dual Laminate projects and learned important lessons along the way.

COURSE HIGHLIGHTS

- Overview
- MOC / Materials Selection
- Design of Vessels, Piping and Flanges
- Fabrication of Vessels and Piping
- Laminating / Welding / Joining
- Installation
- Qualifying a Fabricator
- Testing Techniques and Tools
- Inspection of New Equipment
- Evaluation of In-Service Equipment
- Repair / Alteration
- Case Histories
- Summary / Evaluation

COURSE FEE: Members: \$150 Nonmembers: \$1,500
