

## **Which Golf Handicap System do I use?**

**EWGA Los Angeles uses two handicap systems for competitive events but each EWGA member chooses which system is best for her.**

### **GHIN -- Golf Handicap and Information Network**

Use this system if you are a member of another Golf Club and already have a GHIN number;

Use this system if you want to post your scores at the golf course computer;

Use this system if you want to play in competitive events outside of EWGA.

### **GN21 -- GolfNet21**

Use this system if you only play in EWGA events;

Use this system if you are new to golf.

If you need to change from one system to the other, please contact the Handicap Committee for assistance.
