

WEBSITE MAINTENANCE NOTICE

Valued Members,

The NAAHP website will be undergoing a scheduled update & maintenance on Monday, May 10, 2021 causing a website downtime. The naahp.org website will be inaccessible for member login and all use until completed.

Maintenance Date: Monday, May 10, 2021

Start Time: 06:00am CST

End Time: 12:00am midnight CST (unforeseen complications will increase length of downtime)

Reason for Maintenance:

- 1) A change in the back-end website login processes to bring you a more streamlined member login experience.
- 2) Restructuring of the back-end navigation to accommodate the new login capability.

How Members Are Affected:

- 1) The use of the entire naahp.org website will be halted during scheduled maintenance.
- 2) After maintenance, members will see a more user-friendly login process with a single login required to access their member profiles. We will send you detailed instructions in early May.
- 3) After maintenance, saved NAAHP Passwords, Bookmarks and Shortcut links to naahp.org pages may need to be re-linked.

While the maintenance window is all day on May 10, the downtime may be more or possibly less due to unknown variables within the existing back-end navigation structure. NAAHP will notify members at the conclusion of the scheduled maintenance via an email which will also include any new and necessary information for member login.

We regret any inconvenience caused by this scheduled downtime.

Sincerely,

Cara Stoerger
Program Specialist, Technology
