The National Association of Black Accountants, Inc. Greater Indianapolis Chapter

2019 SUMMER RESIDENCY PROGRAM
Indiana University - Purdue University Indianapolis (IUPUI)
July 7 - July 13, 2019
What is ACAP?

The Accounting Career Awareness Program (ACAP®) is an innovative career development program designed specifically for minority students who are entering their sophomore, junior and senior years in high school. Its primary objective is to increase the number of high school students from under-represented ethnic groups to attend college and major in accounting.

ACAP® a week-long summer camp that introduces minority high school students to accounting, finance, economics, technology and management while providing the foundation of financial literacy and the development of interpersonal skills. Prominent business leaders share their knowledge, provide tips for success and discuss educational opportunities. Students experience accounting first-hand through tours of local certified public accounting firms and companies in the private sector. The program concludes with a recognition luncheon for students, parents, speakers, and corporate partners.

ACAP® is a unique pipeline from high school to college that allows students to become prepared and informed about the expectations of college life. The program is fully supervised and all-expenses-paid. Students selected will receive free tuition, room and board, books, materials, tools, and mentoring opportunities.

ACAP has served as a turning point in the academic lives of thousands of high school students, motivating them to pursue a higher education while influencing them to major in accounting, finance, and business concentrations.

ACAP® has seen a substantial impact on alumni of the program. We are proud that 100% of the graduated seniors that have gone through the NABA Indy ACAP program have continued their education to the collegiate level. Of these students 90% have declared an accounting, financial, and/or mathematical major. We are certain that this positive impact will continue in years to come.
