Dear CE Providers,

Throughout the past year, NAB has engaged with experts from across the country to complete a thorough review of NAB's National Continuing Education Review Services (NCERS) program, along with conducting external research on a wide variety of other associations who accredit CE. Throughout this CE research study, experts evaluated similar CE approval programs in professions like NAB, as well as those that were very different, such as American Institute of Architecture (AIA). These organizations were used to benchmark NAB's current NCERS policies, practices, fees, etc., to determine what works well within the program in addition to identifying areas for enhancement.

The final report included three key recommendations, which were reviewed during the 2023 NAB Annual Meeting. Over the next several months, we will continue to roll out program changes, with all changes expected to be implemented over the next 8-24 months.

This notice is to inform all providers about fee changes that will take place beginning on September 1, 2023. All CE membership fees for both certified and non-certified providers will increase by 10%. Additionally, late fees for program submissions along with fees for account reactivations have increased by 20%. Program fees have remained the same since we are reviewing the recommendations to determine if changes are to come with program approvals.

If you have any questions, please email the NAB office at nab@nabweb.org. Thank you!

The new pricing will be as follows:

Fee Type	Current Fee Until August 31, 2023	New Fee Beginning September 1, 2023
Annual Provider Membership Fee (Standard)	\$275.00	\$300.00
