

Presentation-Only Sessions

Topic Title	Chair	Vice Chair
Advancements in Inspection Instruments and Technologies	Mateusz Starczewski	Brandon Hirvi
Bridge Preservation: New Technologies for Concrete and Steel Structures	Tony Serdenes	Lake Barrett
Coatings 101: Materials, Operations, and More	Charlie Brown	
Data Challenges in Corrosion	Corey Mitchell	Hui (Jack) Wang
DoD Case Studies: Military Infrastructure and Weapon Systems	Cortney Chalifoux	Patrick Cassidy
Drones and Robotics for Preparation, Application, Inspection, and Beyond	Max Mullin	
Expanding Infrastructure: Interference, Reconductoring, and Other Growth Opportunities	Perry Ross	
Impact of Corrosion on Wind, Solar, and Other Renewables	Angel Ricardo	
Jobsite Challenges, Strategies, and Safety Programs	Santiago Arias	Mark Drozdov
Key Corrosion Issues and Mitigation Approaches in Mining and Minerals Processing	Michael Magerstädt	Caleb Wright
Marine Coating Performance Under Pressure: Challenges and Innovations	Mark Schultz	
Preventing Failures in Structural Concrete: Corrosion, Coatings, and CP	Steven Garrett	
Reinvention, Reentry, and Retention	Victoria Wambui Wanja Kageni	Paola Postigo
The Future of Coatings Inspection	Nickey Zafris	
Thermal and Cold Spray Coatings and Case Studies	Shiladitya Paul	Jim Weber
Zinc Coatings and Case Studies for Asset Protection in Corrosive Atmospheric Conditions	Bernardo Duran	Alana Fossa
