NOMINATION FORM
FOR THE NACE TECHNICAL ACHIEVEMENT AWARD

This award is given for technical achievement in corrosion engineering by a member of NACE. The achievement must have had significant impact on the practice of corrosion control or the enhancement of the profession of corrosion engineering. Recognized achievements can be in the areas of research, engineering, or education.

Only nominations made during the 12 months prior to the June 30 deadline will be considered in any year, but nominees can be renominated at any time if a previous nomination failed to result in an award. A simple letter will suffice in the case of re-nomination, but new or additional support evidence must be included.

Talks given, papers published, awards received, books written, patents, educational activities, and technical committee activities will be considered in evaluating the technical achievements of the nominee. Information on these activities should be appended to this nomination form.

A maximum of five awards can be given in any year. No nominating group can nominate or re-nominate more than two nominees each year. A nominee must be a NACE member in good standing. Past recipients of the Speller and Whitney awards are not eligible for the NACE Technical Achievement Award.

Date submitted:        Deadline: June 30

Full name of nominee:  
Given Name             Family Name

Present address of nominee:  
Company: 
Street Address: 
City State 
Postal Code/Zip Country 
Telephone Fax 
E-Mail:
