Onsite Audit and Evaluation

Prior to arrival of Auditor, it is highly recommended that an internal audit be performed using the provided audit checklist

Successful Audit?

If Yes

Company is QP Accredited for 1-year period

If No

Corrective Action to be Submitted within 45 days
If Corrective Action approved, then accreditation is awarded
If Corrective Action NOT approved, then accreditation is revoked
(Follow up audit may still be required)

Required Documents

- 1. Management Reviews** – Mission statement, job descriptions for key roles, insurances certificates
- 2. Administrative and Management Procedures** – contract review, procedures for project specification, procedures for monitoring subcontractors
- 3. Technical Capabilities** – Applicator assessment program, projects completed within 24 months, procedures for requesting clarification
- 4. Quality Control** – Documentation around inspection procedures, qualifications, quality control supervisor and inspectors, quality control procedures, MTE, and training
- 5. Environmental, Health and Safety** – Safety program documentation, PPE program, environmental compliance

How Long Does It Take?

The entire process takes from 6 weeks to 3 months, depending on quality of initial items submitted, location, project schedules, and scope of work
