

Join Leading Coating and Lining Inspection Companies

With a QP 5 Accreditation

And Raise Your Organization Above the Competition

Improve and grow your business with a QP 5 Accreditation from AMPP. This comprehensive program tells the market that your inspection company adheres to the highest quality inspection and procedural standards.

Why do you need QP 5 Accreditation?

Take Your Company to the Next Level.

A QP 5 accreditation tells the market that your organization is a top-tier inspection company.

Refine Your Quality Assurance Procedures.

QP helps organizations of all maturity levels improve assurance procedures.

Access Higher Quality Jobs.

Being QP 5 accredited gives greater access to higher quality jobs and new markets.

Improve Your Internal Processes.

Going through the accreditation process improves existing internal processes and procedures.

Verified value for you and your customers.

Accreditation verifies your company's commitment to procedures and industry-accepted standards that ensure high-quality inspections.

To become QP 5 accredited, inspection companies must demonstrate organizational standards in these key areas:

- Management procedure
- Established inspection practice
- Systems of quality assurance
- Internal audit and review procedures
- Standards for qualifying and training personnel
- Policy for review and resolution of complaints
