

Maritime Coatings Contractor Forum

March 1–3, 2027 | The Battlefield House Renaissance Mobile Hotel & Spa | Mobile, Alabama

Where Maritime Asset Owners, Shipyards, Contractors, and Suppliers Connect

What to expect from the 2027 Forum:

An exclusive, high-impact event connecting maritime coating contractors, commercial and government shipyards, asset owners, operators, and leading suppliers to advance coatings excellence, operational readiness, and fleet performance.

The Forum brings together 200–300 participants for three focused days of technical insight, collaboration, and connection—along with the Contractor Club, a structured supplier–contractor networking program designed to create real business opportunities.

Contractors currently engaged include:

- ABC Applicators, Inc.
- Allied Steel Corp.
- AXS Painting LLC DBA AXS Preservation
- BAE Systems Jacksonville Ship Repair, LLC
- Bayonne Drydock & Repair Corp
- Delta Coatings, Inc.
- U.S. Marine Forces Reserve (MARGORRES)—New Orleans
- U.S. Navy Sup Ship Gulf Coast
- U.S. Coast Guard—Pascagoula

What Supplier Sponsors Can Expect

- Private, pre-scheduled, one-on-one appointments with up to 12 invited Maritime Asset Owners and Contractors holding key painting contracts in the region
- Participation in the Contractor Club and the full three-day Forum
- A “speed-meeting” rotation format ensuring efficient, high-value conversations
- The Signature Experience an invitation-only VIP event following day one of Contractor Club meetings
- High visibility across the maritime coatings community, industrial base, and government attendees

Why Participate?

- Meet decision-makers responsible for coating specifications, maintenance planning, and life cycle corrosion management
- Build relationships with commercial and government asset owners
- Gain visibility among leading maritime coating contractors and shipyards
- Identify upcoming vessel maintenance, repair, and new construction opportunities
- Position your company as a trusted partner in maritime sustainment and asset preservation

Maritime Coatings Contractor Forum

March 1–3, 2027 | The Battlefield House Renaissance Mobile Hotel & Spa | Mobile, Alabama

Four-Star Maritime Coatings Partner – \$15,000

Position your company as a key contributor to workforce development, innovation, and operational excellence across the maritime sustainment community.

Your Sponsorship Includes:

- Up to two executives receive private appointments with invited asset owners/contractors
- Two executives invited to the VIP Signature Experience
- Participation in 15 minute introductory meetings prior to the conference
- VIP access to Forum sessions, meals, and networking events

Brand Visibility & Recognition

- Half-page advertisement with company profile in the event program
- Logo and profile included in event signage and printed materials
- Recognition during opening and closing remarks and luncheons
- Optional speaking or panel participation and/or Round Table Discussion lead
- One literature piece placed at registration (supplier provided)
- Signage and branding during the Connection Reception following the program on day two
- Opportunity to participate in a “state of the industry” Podcast (Audio-Only) as we enter 2027 to discuss the “state of the industry,” but also provide an opportunity for sponsors to discuss exciting developments within their company and their objectives for Forum participation

“The Forum uniquely combines the defense/commercial maritime sector, government, and shipyard stakeholders in a single venue, creating opportunities for collaboration across vessel maintenance, repair, modernization, workforce development, and coatings innovation.”

Jennifer Merck, VP
Maritime—AMPP

“

It was an honor and a privilege to be associated with so many seasoned industry experts. This was an amazing, motivating, professional, and positive event. What stood out most was the emphasis on sharing resources and rethinking how labor and technology can be aligned to improve safety, environmental compliance, and efficiency across commercial, military, maritime, and civil industrial bases. You really have something here that can help so many—first time was a charm.

”

Bill Wren, Assistant Vice President
Special Projects, QP 1 Contractor
