NOTE: Attendees using older “Chrome” browser versions may experience access problems. If you do not see the Training Materials you are looking for, try using a different browser (such as Edge or Firefox) to access the training materials.

For Chrome access issues, the attendee can contact their IT department to add some of our hosting URLs to the whitelist/safelist for access: <https://pathlms.elevio.help/en/articles/119>

This should help with content access.
