National Association of Pediatric Nurse Practitioners

April 2, 2002 - Dinner Meeting  
Keys to Asthma Therapy Success  
Angela Duff Hogan, MD

Meeting Evaluation

At the end of this presentation, the participant will be able to:

1. Discuss epidemiology of asthma.
2. Review NHLB guidelines for management of asthma and recognition of asthma control.
3. Discuss asthma pathophysiology.
4. Discuss risk/benefits of controlling medications in asthma: inhaled corticosteroids vs. leukotriene.
5. Discuss which medications may be most useful as second and third line agents in the treatment of moderate to severe asthma based on literature review.

1 - Strongly Disagree    5 - Strongly Agree    16 respondents

Objective 1 was met: 4.88

Objective 2 was met: 4.88

Objective 3 was met: 4.88

Objective 4 was met: 4.88

Objective 5 was met: 4.88

Material was of sufficient Depth: 4.5

The facilities were conducive to dinner meeting and presentation: 4.3

"Very good speaker - very practical and concrete in her approach."

"Great meal. Great speaker - made it very understandable! Go Advair!"

"Too crowded."

"Excellent." x2

"She was very detailed and provided an excellent review of the current research. Excellent!! :-) She is interesting and her presentation was very well developed and up to date."

"Very interesting - excellent speaker - firm opi(ni)ons are preferred to vague generalizations and PC! :-) "

"Dr. Hogan was an informative, enthusiastic speaker. She brought a wealth of knowledge to the discussion and did a wonderful job."
