

NATIONAL READINESS DATABASE

Real-Time Visibility, Ready When It Matters.

The **National Readiness Database (NRD)** enables the U.S. Coast Guard and Other Government Agencies (OGAs) to identify, track, and deploy trained maritime first responders in real time—strengthening national readiness and response.

1 SEARCH & DISCOVER

Search for trained maritime first responders by:

- Sector
- Agency Name
- Personnel Name
- Certification Type
- Currency Status (Current, Approaching Expiration, Expired)

4 DELIVERING REAL-TIME READINESS

The NRD empowers the U.S. Coast Guard and OGAs to:

- Track trained responders across the nation in real time
- Address increased demand signals and operational tempo needs
- Support unique events and large-scale incidents with confidence
- Strengthen coordination and readiness nationwide

CURRENCY REPORTING DATABASE

A dedicated currency reporting database enables agencies to update annual training and certification currency—ensuring the NRD reflects the most accurate, up-to-date information to meet mission needs.

To obtain access to the NRD, contact NASBLA BOAT Program Director Courtney Livingston at courtney.livingston@nasbla.org
