RECREATIONAL BOATING INCIDENT REPORT – DETERMINING WHICH OCCURRENCES REQUIRE A REPORT TO THE U.S. COAST GUARD? – with annotations

PART ONE: DID THE OCCURRENCE MEET THESE INITIAL, QUALIFYING CONDITIONS?

1. Did it happen on State* or concurrent jurisdictional waters?	If YES, go to Q 2	If NO, then the occurrence may meet
		State reporting requirements, but no
[Reference: 33 CFR 173.51; 46 USC § 13102(b)(1)]		report to the Coast Guard is required.
*State is used throughout to mean the 50 U.S. States, five U.S. Territories, and the District of Columbia. This		
condition refers to Incidents on waters over which the state has jurisdiction and includes sole state waters .		
Note: Private waters, defined as" privately-held waters not subject to the jurisdiction of the United States or a state" might meet State reporting requirements, but they are NOT required to be reported to the Coast		
Guard. Such occurrences that <i>are</i> reported will not be included in the annual Recreational Boating Statistics.		
2. Did it involve at least one of the following?		
A vessel used for recreational purposes.	If YES, go to Q 3	If NO – that is, the vessel involved did
A State-numbered uninspected vessel.		not meet any of these – then the
		occurrence may meet State reporting
A foreign-flagged vessel temporarily using waters subject to U.S. jurisdiction.	If YES, go to Q 3. CAUTION! If the occurrence involving a foreign-	requirements, but no report to the
	flagged vessel meets at least one of the thresholds in Q 3, and is	Coast Guard is required.
	not otherwise excluded after PART TWO evaluation, it must be	
[Reference: 33 CFR 173.51]	reported to the Coast Guard. However, if the foreign-flagged	
	vessel was the only vessel involved, the reported incident will	
	NOT be included in the annual Recreational Boating Statistics.	
	\ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \	
3. Did the occurrence involve at least one of these federal thresholds?	If YES, go on to PART TWO	If NO, then while the occurrence may
		meet State reporting requirements
Fatality.	*INJURY: Requiring medical treatment "beyond first aid" means any physical harm	(e.g., damages to vessels or other
	or hurt for which a person received treatment by a medical professional at a	property totaling less than \$2K), no
Injury that requires medical treatment beyond first aid*	licensed medical facility. Observation without treatment, including EMS personnel who arrive on scene but do not transport the victim to a medical facility, is not	incident report to the Coast Guard is
	treatment beyond first aid and does not meet the injury threshold for reporting.	required.
Disappearance of a person from the vessel under circumstances that indicate likely death or	a calling a system in standard and a document interesting injury threshold for reporting.	- 4
injury.	**DAMAGES: Threshold includes damages to the structural, mechanical and	
	electronic components of the vessel(s) and associated equipment and the material	
 Damage to vessel(s) or other property totaling ≥ \$2,000.** 	cost of restoring boating infrastructure. It excludes the value of personal property	
	on the vessel. The data collection on damages should exclude the labor costs to repair the vessel(s) involved.	
The complete loss of a vessel.***	Tepail the vesselis) illivolved.	
	***COMPLETE VESSEL LOSS: Threshold is defined by situations where the vessel is	
	known or presumed to have been destroyed; presumed to have sunk in an	
[Reference: 33 CFR 173.55(a)(1)-(4)]	unknown location; has sunk in a known location, but will not be recovered; or is a	
	total constructive loss (i.e., so severely damaged it is not worth repairing).	

PART TWO: EVALUATION -- DID THE OCCURRENCE INVOLVE ANY OF THESE?

RECREATIONAL BOATING INCIDENT REPORT – DETERMINING WHICH OCCURRENCES REQUIRE A REPORT TO THE U.S. COAST GUARD? – with annotations

In reported by a State to the Coast Guard, these occurrences will NOT be included in the annual Recreational Boating Statistics report Voluntary departure injuries/fatalities:	NOT REPORTABLE TO THE COAST GUARD		
vessel, to swim for pleasure, or to retrieve another object. Voluntary departure injuries/fatalities:	If reported by	a State to the Coast Guard, these occurrences will NOT be included in the annual Recreational Boating Statistics report	
Vessel-use exceptions The only vessel(s) involved were used solely for governmental or criminal activity (in the course of a criminal offense, with exception of impairment and boating safety-related offenses); engaged in sanctioned-activity events and exempted from being state-numbered since they are used exclusively for racing); or were non-propelled residential platforms. Self-inflicted injuries/fatalities Self-inflicted injuries were the cause (Examples include self-inflicted wounds, ingestion of controlled substances or poison, gunshot wounds). Assaults A person(s) suffered an injury, death, or is missing as a result of an assault by another person or persons while aboard a vessel. Medical event A person(s) superienced a medical emergency unrelated the wessel or rise equipment, and no other vessel was involved. A medical emergency does not refer to physical impairments such as poor eyesight, poor hearing, or mobility difficulties. Watercraft not a "vessel" The only watercraft involved were not considered "vessels" as defined in 1 U.S.C. § 3. Examples include: a pool float toy, innertube, float tube propelled by feet or fins, surfboard, submersible, diving propulsion aid, stock tank, air mattress, fish-tote, floating dock, unmodified log, non-propelled residential platform, snowmobile, seaplane. When natural phenomenon - interaction when a material phenomenon was involved, no othe event occurred, and no other federal reporting threshold was met. Examples include interaction with marine life (e.g., carp causes injury to person) or interaction with nature (e.g., mountain side falls onto docked or moored vessel causing damage). Falls, ejections, impacts - from docked or moored vessels Launching / recovery injuries, fatalities, damages Boarding / departing vessel injuries,	1

RECREATIONAL BOATING INCIDENT REPORT – DETERMINING WHICH OCCURRENCES REQUIRE A REPORT TO THE U.S. COAST GUARD? – with annotations

CROSS-CHECK - REPORTABLE TO THE COAST GUARD

Occurrences listed below that meet the conditions in PARTS ONE and TWO and that are not otherwise excluded as "Not Reportable to the Coast Guard" will be included in the annual Recreational Boating Statistics report

Refer to CG-BSX Policy Letter 23-01, paragraph 4 for definitions of terms

Capsizing	Person ejected from, falls overboard from, or impacts a vessel underway or anchored
Carbon monoxide exposure	Person struck by propeller / propulsion unit / water jet
Collision with a fixed object (allision)	Person struck by vessel
Collision with a floating object	Sinking
Collision with a vessel	Swamping
Electrical shock	Towed watersport mishap
Fire or explosion (fuel and non-fuel materials related) when the vessel is underway, at anchor, or is properly moored or docked and involved in fueling or starting; or when attributed to the vessel's equipment or electrical components	Occurrences involving recreational vessels already underway, including during storms or unusual tides or sea conditions, that engage in Good Samaritan acts
Flooding	Occurrences involving vessels engaged in sanctioned-activity, unless they are specifically exempt from the numbering requirements per 33 CFR 173.15.
Grounding	Other occurrences where the vessel operation, construction, seaworthiness, machinery, equipment, and loading or environmental forces were involved.
Interaction with natural phenomena when the vessel is underway, at least one federal regulatory reporting threshold was met, and another event occurred	
Person departs vessel voluntarily when the vessel is underway, or the vessel was recently anchored for immediate repairs (e.g., unfouling an anchor or cleaning an intake)
