FTA Services Taxation Survey – 2017 Update [preliminary results]

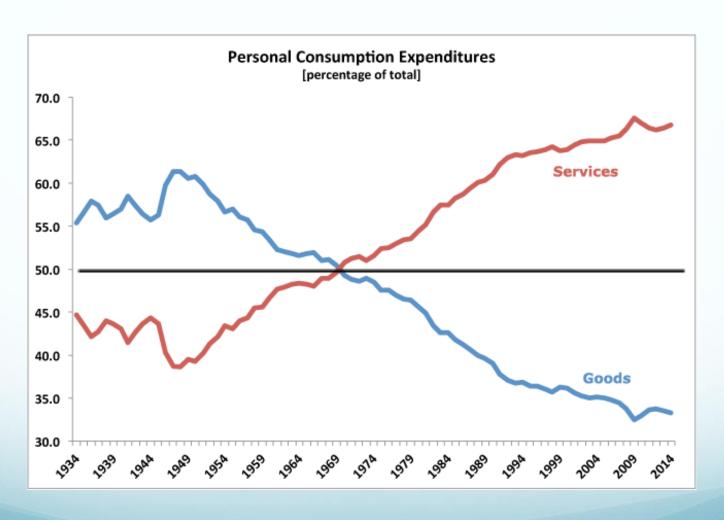

Ronald Alt, FTA

Presentation to the 2017 NASBO Fall Meeting October 6, 2017, Alexandria, VA

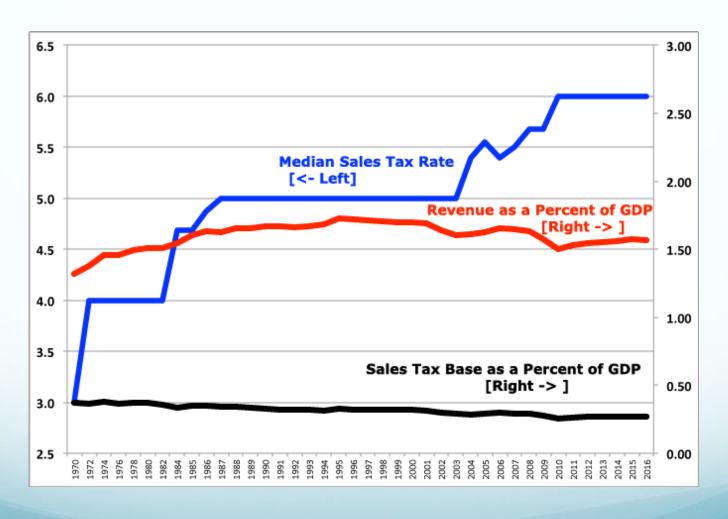

Background

- Survey First Compiled in 1990
 - 167 Services
- Updated Periodically, the Last Update was 2007
- The 2017 Survey Added Cloud Computing and Other Online Services
 - 176 Services, plus 10 Cloud Computing Services
- Purpose: To Develop a System to Help Understand the Extent that States Tax Services!

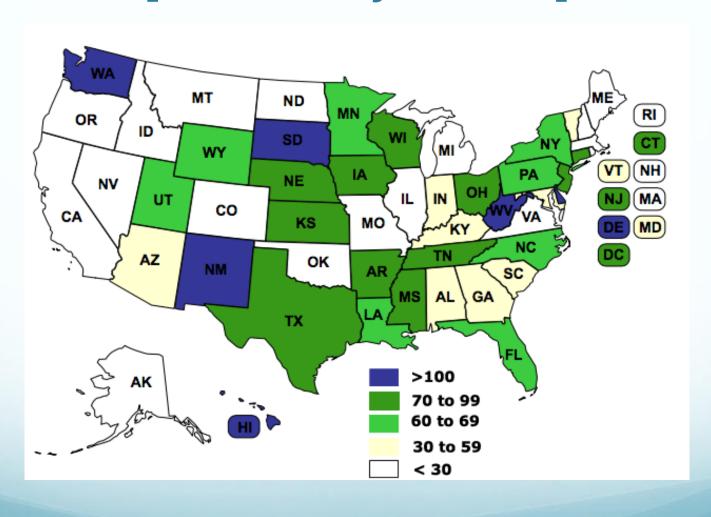

Why Should We Be Concerned About Services?

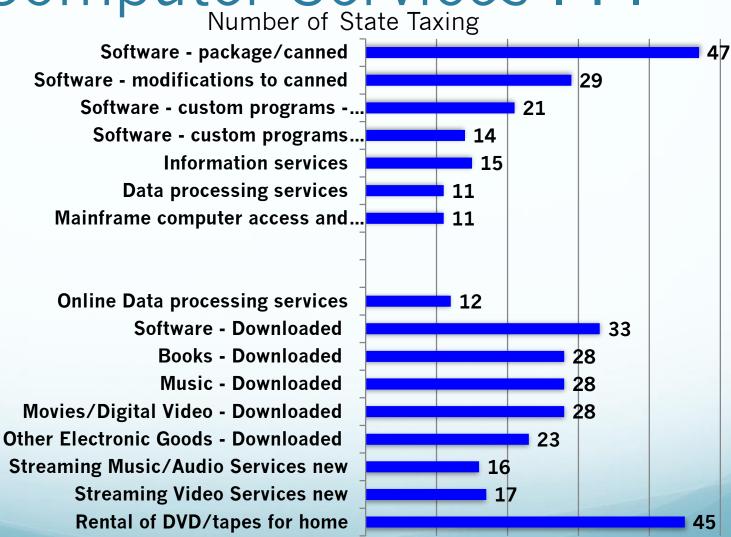

Sales Tax Rates Have Increases and Revenues.

Number of Services Taxed-2017 [Preliminary Results]

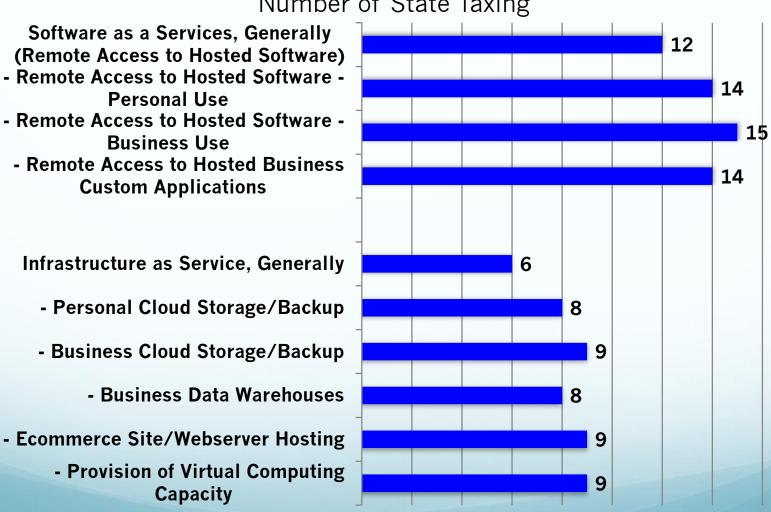

Software is Taxed . . . But, Computer Services . . . Number of State Taxing

Few States Tax Cloud Computing Services

Number of State Taxing

Recent Legislation Since 2007 . . .

- Connecticut in 2012 and 2015
 - Added Selected Business & Personal Services
 - Increased the Number of Services from 88 to 99
- The District of Columbia in 2012 and 2015
 - Added a Number of Personal Services
 - Increased the Number of Services from 75 to 91
- North Carolina Added Repair Services in 2016
 - Increased the Number of Services from 36 to 62

Where Do States Go From Here? [Lessons Learned]

- Massachusetts and Florida teach us that only an incremental approach will work.
- A few states have been successful in broadening the sales tax to selected services
- Still, States have a long way to go.

Conclusions

- Issues/Problems with Taxing Services
 - See My Presentation at the FTA Revenue Estimating Conference www.taxadmin.org/rev_est
- The Spreadsheet and Results will be Available on Our Public Website [by the end of the year] See www.taxadmin.org
