

NASN Poster Slide Instructions

Poster Disclosure

NASN must ensure that all NCPD educational session(s) content is free of commercial interest, bias, and influence to maintain the highest quality of integrity of the content. Each nursing continuing professional development (NCPD) activity that NASN provides must be compliant with ANCC disclosure statement requirements. Which includes every NCPD activity listing any disclosures or indicating there are no relationships to disclose in the appropriate statement. The intent of this disclosure is to provide learners with information on which they can make their own judgement.

Resource: [Presence of Relevant Financial Relationship Policy](#)

Please copy/paste the disclosure statement language under the title on the poster.

Option 1: (No financial relationships to disclose)

There are NO relevant financial relationships to report for the past 24 months for ALL those with the ability to influence the content of this educational activity.

Option 2: (There are financial relationships to disclose)

[Insert Presenter(s), Planner, Author, Name(s) here], [insert job/position title], for this educational event, and has received a [insert the relevant financial relationship(s) here]. The relevant financial relationships listed for this individual has been mitigated.

Commercial Support

Commercial support is defined as financial or in-kind support from ineligible companies. However, the support does not establish a financial relationship between the ineligible company and planners, faculty, and others in control of content of the education.

If commercial support applies to the poster, insert this language under the title on the poster: ***This educational content was made possible through the generous funding of [company name but no logos].***

Posters and other materials related to educational activities should not display logos or trademarks of ineligible commercial companies or organizations.

Evidenced-Based References

Evidence-based references are **required** and are NOT optional or able to be offered upon request. They must be relevant, timely and follow APA format. Websites are acceptable only when they are written with the required documentation in APA format. NASN accepts seminal evidence-based references. However, NASN expects presenters to do their due diligence to ensure that more research has not been presented on the topic in order for the reference to qualify. ANCC highly encourages this practice as well.

Poster Format

Posters will be displayed on digital screens at in-person conference and in the conference mobile app.

Software

Create the poster using PowerPoint.

- Create one slide.
- Do not include animations, QR codes or interactive components.
- Save your slide as a PDF.

If PowerPoint can't be used, create the poster using a word processor.

- Create one page in landscape.
- Save the document as a PDF.

Styling

- Colors: Limit to four different colors.
- Font size: No smaller than 18-point.
- Font face: Avoid using varying font faces, which can be distracting and hard to read. Instead, choose a single font face. Italicize, bold, increase font size or apply color to differentiate the text where needed (titles, headings, sub headings, other).
- Case: Avoid using all upper-case for titles, headings and sub headings.

Content

- Orientation: Information should flow from left to right or top to bottom.
- Follow the research method: background, method, results, conclusion & implications for practice.
- Use graphs, charts, tables, figures, pictures or lists instead of text where possible.
- Include contact information so learners can follow-up.
