

FASN Strategic Plan 2023-2028

Engage School Nurses in Advocacy within the 21st Century School Nursing Framework Objectives

- Advocate for school nursing practice that improves student health outcomes and academic success.
- Foster relationships with national and state associations, higher education institutions, and agencies to promote priority issues in school health.
- Inform and affirm school nurses in utilizing the full scope of school nursing practice.

Promote Organizational Membership to School Nurses Statewide Objectives

- Increase membership and develop leaders and regional representation.
- Enhance communication measures that promote the benefits of a diverse membership and its impact on healthy students, schools, and communities.

Support Student Health Outcomes through Education and Research Objectives

- Increase professional development opportunities through education, certification, and recognition.
- Encourage initiatives that promote the adoption of clinical practice guidelines, and evidence-based and data-driven practice.
